## COPTER COMING FOR FERRY RUN

VANCOUVER (CP)—A turbine-powered Sikorsky S-62, believed to be the world's first successful helicopter flying boat, is scheduled to arrive here April 2 for testing over the route of a proposed Vancouver-Victoria passenger service.

Application to operate the helicopter service has been filed with the Air Transport Board by Okanagan Helicopters Limited. The service would operate between the downtown areas of each city.

The S-62, which carries 12-14 passengers, is a smaller version of the twin-turbine S-61, which seats 25-30 persons and is considered the most likely aircraft for the proposed service. Cost of an S-61 is almost \$1,000,000.

AND ALBERT CHRISTIAN EDWARD

## PRINCE ANDREW 'SIGNED IN'

### Queen's Baby Named After Philip's Father

LONDON (Reuters)—Queen Elizabeth today named her second son Prince Andrew after her husband's late father, Prince Andrew of Greece.

The full names of the 32-day-old baby were Andrew Albert Christian Edward.

The second name is after his other grandfather—King George VI of Britain, who was known as Albert in his youth.

The other two are in honor of his great-great-grandfathers, King Christian IX of Denmark and King Edward VII of Britain.

The Queen and Prince Philip gave the names to William Prince, the local registrar who visited Buckingham Palace to record the birth.

British royalty has not had an Andrew in about 500 years, according to reference books. The last was a son of Robert II of Scotland at the close of the 14th century.

The first infant born to a reigning British monarch in 103 years, the boy is second in line to the throne. His 11-year-old brother, Prince Charles, is heir apparent.

Prince Andrew was born at Buckingham Palace Feb. 19. He weighed seven pounds, three ounces at birth.

## U.S. Bases To Stay Reds Told

(See Page 3)

GENEVA (UPI)—The United States today summarily rejected Soviet demands for the liquidation of overseas bases as the first step toward disarmament.

It said American troops would remain as long as they are needed "to defend the free world's security."

E. S. delegate Frederick M. Eaton told the 10-nation disarmament conference that it would be "neither profitable nor fruitful" to discuss overseas bases here.

He was replying to repeated Soviet demands for the "liquidation of foreign bases." Eaton said American troops are stationed abroad by invitation of the host countries.

### REDS NOT INVITED

He sharply reminded Russia's Valerian Zorin that the Soviets also have troops stationed outside their borders, but with this difference—they were not always invited. They have gone there sometimes as the result of direct attack or political action and have been used on occasions against hostile populations Eaton said.

Eaton did not refer specifically to the Hungarian freedom uprising of 1956 nor the East German workers' revolt against the Communist regime in 1953, but his meaning was clear.

### STRONG ENOUGH NOW

French delegate Jules Moch earlier in the meeting pointed out that under the Soviet disarmament proposals, Russia's "internal security forces" would still be strong enough to force Moscow's will on smaller nations. The only safeguard, he said, was the creation of an international police force.

The West proposed at today's three-hour meeting a limited nuclear disarmament agreement with iron-clad, cheat-proof, controls as the first step toward a total East-West ban on nuclear warfare. Moch told the Soviets that this "is the only serious, honest and solid way to approach the problem."

Canada's Gen. E. L. M. Burns, who spent the last six years supervising the uneasy truce between the Arabs and Israelis, also stressed the importance of effective control measures.

He said "it is our experience that all too often agreements are not carried out" and "there are many means of evasions and of concealment of weapons."

## Libby Project Dropped

By TOM GOULD

(Times Ottawa Bureau)

OTTAWA—The United States is ready to make a deal on the Columbia River.

U.S. negotiators slipped secretly into Ottawa Monday for surprise talks aimed at bringing about a rapid settlement on Columbia power development.

B.C. representative Ed Bassett was called to attend and flew to the capital in time for the talks.

Next official meeting of the two negotiating teams was not scheduled to be held until the end of the month in Washington.

One source said the U.S. officials sent word to Ottawa they were ready to make a deal, and wanted "informal" talks to lay the groundwork.

### EXCHANGE SOUNDED

It is believed the U.S. notified Justice Minister Davie Fulton and the remainder of the Canadian team, that it is willing to give up its plan to construct the Libby Dam in Montana.

The Americans asked what concessions Canada could make in return to make the decision to drop Libby palatable to the U.S.

Federal officials were astounded at the sudden change of heart by the Americans. When the last Columbia meetings were held at the beginning of this month in Washington, the word was the U.S. was being "very tough."

### CHANGED PICTURE

Reports from the U.S. capital said snags had developed in the talks, and warned of months of delay. Ottawa officials conceded that an agreement could be months away, too late for ratification by the U.S. Congress.

Monday's talks have changed the entire picture.

There have been rumors in Ottawa that B.C.'s original position was that it favored the Libby project. This would mean that the High Arrow dam on the Arrow Lakes, and Libby, would be the only two projects built for some years.

Ottawa firmly believes that High Arrow, although attractive from a short-range point of view (it is the old Kaiser dam in slightly different form) is not in the long-term interest of B.C. or of Canada.

It prefers to have all storage and flood control projects in Canada. Cancellation of Libby would mean construction of the Mica dam, diversion dams in the East Kootenays and a lower dam on the Arrow Lakes.

Libby would provide storage and flood control for power plants on the U.S. Columbia, but compared to Mica and other Canadian projects would be vastly more costly.

## A Steel Cage for Khrushchev

PARIS (Reuters)—Sixty-four police motorcyclists will provide a protective mobile "cage" for Nikita Khrushchev when he drives into Paris Wednesday to begin his 12-day visit to France.

The escort, showpiece of the massive security precautions planned for the Soviet premier's safety, will completely surround his car.

Police leave has been cancelled for the visit. Between 10,000 and 12,000 officers—half the Paris force—have been detailed for "Khrushchev duty." At points in the heart of Paris they will be stationed only three feet apart.

The security plan provides a personal bodyguard of 35 plainclothesmen—10 Russians and 25 Frenchmen. They will

take over when he arrives at Orly Airport and work in shifts until he leaves France April 3.

Interior ministry officials have declined to comment on Paris newspaper reports that all the food prepared for Khrushchev will be tested for poison and radioactivity.

Police made another security check today along the arrival route, questioning about 50

persons in dawn visits to their homes. No arrests were announced.

Some right-wing groups plan to wear black ties and armbands the day Khrushchev passes through their towns, the newspaper Le Monde says.

The Communist party is expected to make a major effort to get its 4,000,000 voters out on to the streets to welcome the Soviet leader.

## U.S. FLAYS SOUTH AFRICA POLICE ACTION

WASHINGTON (CP)—The United States, in an extraordinary action, today expressed "regret" at the tragic loss of life "resulting from the measures taken against the demonstrators in South Africa."

An official statement, saying the U.S. "deplores" violence "in all its forms," expressed hope the African peoples will be able to obtain "redress for legitimate grievances by peaceful means."

## U.K. Labor Asks Protest

LONDON (AP)—The government today refused opposition demands for an expression of sympathy for Negro victims of Monday's race riots in South Africa.

At the same time Labor party leaders failed to win a one-hour suspension of the House of Commons as a sign of the nation's shock at the bloody outbreaks.

### Picketing Continues

LONDON (Reuters)—Five men and two women today continued their around-the-clock picket line at South Africa House here in protest against the police action in opening fire on the revolt in South Africa. Negroes near Johannesburg and Capetown Monday.

JOHANNESBURG (CP)—Police opened fire on Negro crowds today as bitter racial tension again erupted into violence in a Negro township near Capetown.

The new outbreak came as the official death toll in bloody clashes Monday rose to 66 Negroes dead and 186 wounded. Reuters news agency said one Negro was reported wounded in today's shooting in nearby Langa Township, where two persons were killed and more than 30 injured Monday night. Police opened fire to disperse crowds which assembled in the streets of the township again today.

Trouble also was reported from Nyanga West Township, where Negroes were said to have tried to set fire to an electricity department building. Meanwhile, tension remained high in Negro townships near Johannesburg, 900 miles to the northeast, where the worst of Monday's violence occurred. More than 60 persons were killed there when police opened fire with rifles and machine guns on crowds protesting against this country's laws requiring Negroes to carry passes.

Police rumbled through the streets of the native sections in armored cars. Those on patrol carried machine guns and rifles, some with bayonets fixed on them.

Dealers in firearms in the Johannesburg area reported that whites were buying up any type of gun they could get.

### Surgeons Busy in Jammed Hospitals

Hospitals in Johannesburg were jammed with the injured from fighting Monday in Sharpeville, where the worst violence occurred.

Beds were full and patients were crammed together on the floor of the Baragwanath non-white hospital. A nurse said doctors performed 66 operations on the wounded during the night.

Reports published today in London newspapers put the toll as high as 170 killed and 400 wounded. One London paper, The Daily Herald, Labor says, in an editorial that "yesterday's House here in protest against the police action in opening fire on the revolt in South Africa. ## FIREBUG TERRORIZES DESERT CITY

INDIO, Calif. (AP)—Special patrols moved through this fire-frightened desert city today as edgy citizens wondered where an elusive arsonist would throw his torch next.

There have been three major fires in six days, and one estimate places damage at more than \$1,000,000. One of the fires broke out in a movie theatre, sending 50 patrons dashing into the street. The theatre roof later caved in.

The city council Monday declared a state of emergency, placing the fire and police departments on stand-by status. United States Marines based nearby are patrolling the streets, and businessmen have been asked to augment this force with patrols of their own.

## 'Place in Europe For Japan Trade'

BOSTON (CP)—Canada and the United States must work together to find a place for low-priced Japanese and Hong Kong goods in European markets, congressman Frank M. Coffin said today.

The Maine Democrat, co-author of a congressional report aimed at strengthening Canada-United States relations, said that if the two countries settle for less in re-shaping of European trade, an opportunity would be lost to plug holes in the fabric of the free world.

Speaking before a Canadian-U.S. business conference at Boston College, Coffin said one aggressive European businessman had told him last fall that there is no room in Europe for Japan.

## DANGEROUS DOCTRINE

"This is, of course, a dangerous doctrine. But it will take resourceful persistence on the part of Canada and the United States to face up to the fact that there has to be a place in Europe for Japan."

"This is a time for boldness in our economic diplomacy." Canada and the U.S. had taken the lead in absorbing the import load of manufactured goods from the Far East, Europe had to take up some of the load. Coffin said Canada and the U.S. recognized this when a joint ministerial conference last month said there must be more-even distribution of the impact of low-cost competition.

## Locals Open Drama Festival

By AUDREY JOHNSON

A colorful and emotionally turbulent lead-off was given this week's parade of plays in the British Columbia Region, Dominion Drama Festival, Monday night, by Victoria Theatre Guild with the Australian play, "Summer of the Seventeenth Doll."

The festival is taking place nightly at Oak Bay Junior High School.

To James E. Dean of Toronto, one of the first team of Canadian adjudicators to view regional in the DDF's 20-year history, the week ahead looks good, despite the weight of responsibility resting on his shoulders.

After having seen the six full-length productions—which he described in his opening remarks Tuesday, as "excellent, well-contrasted choices"—Mr. Dean was able to view with sympathy the hazards of production in even the best school auditorium, as well as the problems of casting in amateur groups.

His adjudication, delivered with lively humor and tact, was preceded by an outline of what he will be seeking during the week.

"Sincerity of purpose in interpreting the play as the author intended... technical competence in acting, directing and production... projection... to communicate the play to the audience."

He also would ask that directors make up their minds what the play is about... "Usually the authors know

## UBC PLAYERS SHOW TONIGHT

Tonight's presentation in the B.C. Region of the Dominion Drama Festival will be Peter Ustinov's sparkling comedy, "Romanoff and Juliet," production of University of British Columbia Players' Club in which John Sparks, young Victoria actor, is playing a leading role.

Festival is being held at Oak Bay Junior High School and curtain time is 8:15. No late-comers will be seated until the first intermission.

and quite often put it in the title."

Mayor Percy Scurrell declared the festival officially open.

"Summer of the Seventeenth Doll," by Ray Lawler. Presented by Victoria Theatre Guild. Anabel Cranston, Pearl Cunningham, Anabel Cranston, Bubby Ryan, Marlene Dixon, Olive Leach, Elizabeth Mayne, Barry Blot, Terence Murray, Emma Leach, Dorothy Dunbar, Ron Webster, Richard Litt, John Dowd, Cliff Carle.

Commenting that this was a good play even though it tended to "peter out at the end," Mr. Dean warned against emphasizing dialect at expense of the audience's enjoyment through understanding.

## Australian Dialect 'Accepted'

He appeared to be in some doubt as to authenticity of the Australian dialect but said that he "accepted it as probably quite fair."

Mr. Dean criticized the set as "too spacious," allowing a tendency for groups to act at the extremes of distance from one another; however he found it good in detail.

He found excellent teamwork and a fluidity in the grouping which he liked. Rhythm and pace he thought, too uniform and he questioned a flood of red light on the backdrop.

Characterizations in general had been excellent.

Anabel Cranston's "Pearl" was "terrific." She was beautifully economical in her movement and gestures and when she had nothing to do she did it beautifully," the adjudicator commented.

He found Marlene Dixon most audible of the women and felt that her fine performance had been deeply experienced. "it came from within."

For Terence Murray he had praise, although he thought his performance a little uneven. He had sustained the drunk scene—one of the hardest things to do on the stage—splendidly, Mr. Dean considered.

The adjudicator remarked that he had not visualized "Emma" in quite the way it was presented by Dorothy Dunbar, but that this had been a consistent performance. Of Cliff Clarke's "Johnnie" he commented, "...very good."

He felt it unfortunate that Elizabeth Mayne had opened

## HEART DISEASE: WHERE WE STAND

## Breakthroughs Ahead

(Last of a Series)  
By A. C. ERNSTENE, M.D.  
President, American Heart Association

CLEVELAND (NEA)—Research in diseases of the heart and circulation has acquired great momentum during the past 10 years, and it will be most disappointing if this does not lead to important breakthroughs within the next decade.

Of the nearly 900,000 deaths each year from disorders of the heart and blood vessels, more than 90 per cent are due to arteriosclerosis (hardening of the arteries) and hypertension (high blood pressure).

Arteriosclerosis of arteries which supply the heart muscle itself with blood is responsible for the largest single form of heart disease and causes more deaths each year than all other forms of heart disease combined.

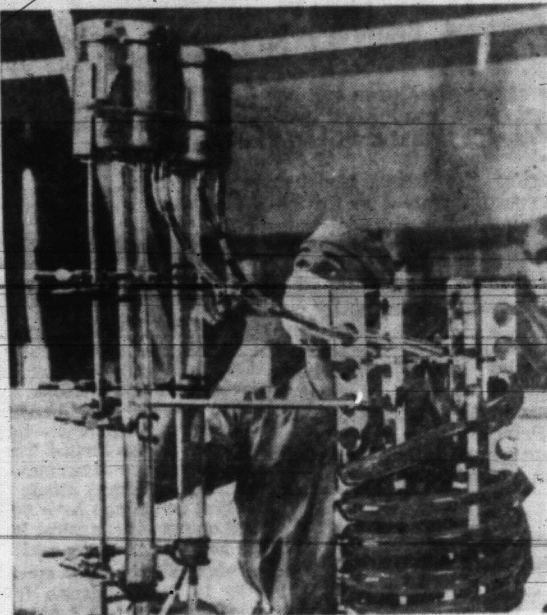

There is convincing evidence that heredity, obesity, high blood pressure, and increased amounts of the fatty substance cholesterol in the blood favor the development of the arteriosclerotic changes in the affected vessels. Other evidence suggests that emotional stress, inadequate exercise and excessive cigarette smoking may be significant contributory or aggravating factors.

Much research has been carried out in recent years on the relationship between all of these factors and the development of arteriosclerosis. Special attention has been given to the role of cholesterol.

Further research undoubtedly will make it clear within a few years whether a high blood cholesterol by itself causes arteriosclerosis in man or whether there must be in addition some abnormality in the growth and repair processes of the blood vessel tissues themselves. This will be a most important addition to our knowledge.

Well-controlled research has demonstrated that abnormal amounts of cholesterol in the blood can be reduced, often to a completely normal level, by limiting the amount of solid fats in the diet and replacing them with certain liquid fats.

Whether control of the blood cholesterol in this manner will actually prevent the development of arteriosclerosis or lead to improvement if arteriosclerosis already is present, should become known within the next 10 years. This would supply the first positive means of preventing or alleviating coronary heart disease and hardening of the arteries in other parts of the body.

HEART-LUNG machine opens new doors for heart surgery.

The commonest form of heart attack is due to blockage of an arteriosclerotic coronary artery or one of its branches by a locally formed blood clot. The commonest type of stroke is the result of a similar process in small arteries of the brain.

Clot-dissolving substances have been developed during the past few years. Improved preparations undoubtedly will become available soon, and when employed promptly these may greatly alter the outlook for heart attack and stroke victims.

## Many New Drugs

In the past 10 years, many new drugs for the treatment of high blood pressure have been discovered, and the list is being added to constantly. As a result, it is now possible to control high blood pressure partially or completely in most but not all cases. The cause of the most common type of high blood pressure is still unknown. Until it is discovered we can expect little further improvement in the present situation. Research may bring the answer to this problem within the next 10 years.

Rheumatic heart disease, the most common form of heart disease in children and young adults, develops as the

only important permanent complication of rheumatic fever. Attacks of rheumatic fever are preceded by a streptococcal infection, most commonly a streptococcal sore throat. But a rheumatic fever occurs in only 3 per cent of all persons who have such streptococcal infections, and we do not know what it is that is responsible for the development of the disease in this 3 per cent.

## Encouraging

The great forward step in heart valve surgery undoubtedly will consist of the development of techniques for the replacement of damaged valves with artificial valves. Animal experiments along this line are being carried out and the progress is encouraging.

With the aid of the heart-lung machine, amazing progress has been made in the surgical correction of congenital (in-born) heart defects. These were regarded as untreatable disorders until the early 1940's, when their association with German measles in the mother's early pregnancy was discovered. This discovery stimulated a search for other external causes of congenital heart defects. Within the next few years this search may well lead to dramatic new victories in the area of congenital heart disease.

# Ike Caught on Dilemma By Soviet Nuclear Offer

WASHINGTON (CP)—President Eisenhower likely will play for time as he comes to grips with increasing pressure to reject the latest Russian offer to suspend all nuclear tests.

Outright rejection would bring a rift in views between the United States and Britain and place the United States under an unfavorable cloud in world diplomacy.

Thus, as Britain was reported to have urged the United States to go along with

the main lines of the Russian offer, Eisenhower and State Secretary Herter tussled with the issue for an hour Monday and said through spokesmen that they would give the proposal serious consideration.

United States diplomats said it would take some time before a decision is reached.

Meanwhile Senator Clinton Anderson (Dem., N.M.), head of the powerful joint congressional committee on atomic energy, urged Eisenhower not to bargain away United States

## U.S. PONDERS, TALKS STALLED

GENEVA (CP)—A session of the three-power nuclear test ban conference was cancelled here today to give U.S. and British delegates time to study a Russian proposal calling for a ban on all nuclear tests above a certain size and a moratorium on smaller underground tests.

The U.S. wants freedom to conduct underground tests for peaceful purposes, such as a proposed salt mine detonation at New Mexico next fall and detonation of Alberta's Athabasca oil sands early next year.

With the proposed Athabasca explosion partly in mind, Anderson said in a statement that the Soviet proposal would leave no room for underground peaceful tests. The U.S., he believed, should be allowed to make such tests "for power purposes and for development of oil and mineral deposits."

# Russia Proposes 12-Mile Limit

GENEVA (Reuters)—Russia today proposed maximum territorial-water and fishing limits of 12 miles from all coastal countries.

This proposal, considered likely to attract such countries as Canada and Iceland but to be opposed by United States and Britain, was presented to the week-old law of the sea conference here by Soviet delegate Grigory Tunkin.

He said every coastal state should be able freely to fix its own territorial sea up to a limit of 12 miles—four times the present three-mile limit.

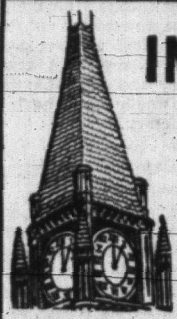

If any country chose a narrower width it could declare a fishing zone for the remaining distance up to 12 miles.

In this maximum 12-mile fishing zone a country would have the same private, exclusive rights to fishing and "ex-

ploitation of the living resources of the sea" as it has in its territorial waters.

The Soviet delegate said the 12-mile limit would increase security of coastal states because there were "many instances when some states even in peacetime send their warships to the coasts of other states, stage demonstrations of military power, carry on manoeuvres of large units of warships and aircraft with a view to exercising pressure."

Canada and Iceland are committed to the battle in favor of exclusive fishing rights up to 12 miles.

## IN PARLIAMENT

### Pearson and Churchill Duel on Trade Policy

(From Times News Service)

OTTAWA—Trade Minister Churchill says there is little to substantiate claims by the governor of the Bank of Canada that Canadians are living beyond their means.

In a 2½-hour speech in the Commons, Mr. Churchill took issue with bank governor James Coyne who in his annual report to Parliament last week called for immediate steps to halt overspending for capital growth and consumer goods, which was being financed through imports of foreign capital.

Mr. Coyne's statements were read into the Commons record by Opposition Leader Pearson, who suggested they were the sort of warnings that lead him to believe Mr. Churchill is altogether too complacent and optimistic about Canadian trade.

In a non-confidence motion, Mr. Pearson called on the government to take steps towards establishing an Atlantic free trade area, as the only means to combat the threat posed to Canadian trade by regional trading blocs.

Mr. Churchill went into great detail on all aspects of Canadian trade which, he said, "is in a healthy condition."

He said the \$1,460,000,000 deficit last year in all of Canada's international transactions must be viewed against the background of Canada's foreign earning capacity and the economy's productive capacity. The trend of consumption must be related to total resources.

In the 1955-59 period, consumption increased at about the same rate as domestic production. Capital outlay as a proportion of the gross national product was substantially higher than that of any other major trading nation.

The deficit was a record but so was the size and wealth-producing capacity of the economy.

"The real issue here is whether the present course of our development is sufficiently at variance with the interests of Canadians at large to warrant strong interference and control on the part of the government."

## Giant Blocs Threaten Isolation

Mr. Pearson led up to his proposal of an Atlantic free trade area by picturing the danger to Canada of being isolated in world trade dominated by "giant" regional trade blocs, such as the European Common Market and European Free Trade Association and the Communist bloc.

Mr. Pearson proposed:

1. More aggressive trade promotion, particularly abroad.
2. Renewed assault on non-tariff obstacles to trade, such as customs procedures, which could at times be a greater barrier to trade than tariff walls.
3. A "sensible" tariff policy based on recognition that, if Canada is to sell abroad, she must also buy from other countries. In this regard, Japan should not be pressed too hard to accept export quotas on goods moving to Canada because Japan represented an area where markets could be increased.
4. An improved competitive position in world markets through recognition that wage increases must be justified by greater productivity, avoidance of excessive profits and expansion of export credit facilities.

Mr. Churchill replied that in the long run "Canada's trade with Western Europe would likely be improved rather than restricted."

"From all indications we expect that the year 1960 will be

## Totally Oblivious

THE other evening, I delivered a young lady to the residence where she stays during this stage of her professional training. You approach the residence by a semi-circular driveway that sweeps in from the main road to the front door and continues around back to the road. It's a good driveway, hard-topped and curbed, wide enough for two cars to pass.

Stott

But if you enter just before the deadline for the young ladies to check in, you'll probably find a car or two parked on one side while a young lady and her escort exchange a last word or two before parting—and that can be very silent conversation indeed.

The other evening these silent conversations were popular. The line-up of parked cars occupied the whole of one side of the present. Traffic, in consequence, was strictly one-way.

It so happened that my car followed a much more attractive vehicle into the driveway. When the car in front stopped, as I thought, to discharge a passenger at the door, I stopped also because I couldn't get through. That left the nose of my car just under the big rear window of the one in front.

The driver ahead turned to the passenger ahead, who had turned toward him, and the magic of springtime turned on its particular magnet.

I looked away and noticed a string of cars lining up behind me. When I looked back, after a decent interval, the magnet was still exercising its power. It was embarrassing.

That may be springtime, but I'd had a hard day in the garden and was a bit anxious

## YOUR HEALTH

to get home to bed. The people ahead seemed lost in oblivion. Foregoing gallantry, I touched my horn gently. Very casually the car ahead pulled out of the driveway and we who were behind were able to get back onto the main road.

Driving away, I tried to attribute the incident to the influence of the little blind boy. But the concept wouldn't jell. The driver ahead, I'm convinced, was oblivious to everyone else but his passenger. That's flattering enough to a passenger, but it sure piles up a long line of cars behind the one that's parked.

Heaven help me if I'm so far past my youth that I lack sympathy for the way a young man's fancy turns at this season. Only I doubt that youth or spring has much to do with the prevailing obliviousness of people to others in these times.

In the tenderest of gestures, the young man in the car ahead of me indicated that he would look after his interests, and if that inconvenienced anyone else, so what?

You see it too often—a lack of consideration, an unconscious disregard for other folk. The litterbugs who spoil parks and scenic beauty spots, who toss candy wrappers and discarded bubblegum around public rooms, the people who push their way unnecessarily through crowds—they all couldn't care less about anyone else.

Maybe that's the way it's going to be. Perhaps that's what Ayn Rand, the distinguished novelist, was saying on television the other night when she attacked altruism as the abasement of the individual.

On the other hand, I may be doing the young man in the car ahead of me the other evening an injustice. He may have been a considerate person temporarily immersed in that emotion which older people are expected to treat with the utmost indulgence. Okay. But why hold up traffic with a public show that looks better on television?

## Painful 'Tailbone'

Emeritus Consultant in Medicine, Mayo Clinic and Emeritus Professor of Medicine, Mayo Foundation

Many a nervous woman wants to know if she should let her doctor cut out her sore and painful little tailbone, or coccyx. I am surprised that her physician can be such an optimist as to hope that he can succeed with an operation, which every surgeon I have ever met says never did any good.

I have seen scores of women with a painful coccyx, and they were all highly nervous. Most of them had some insane relatives. One can X-ray a sore coccyx, one can examine it with a finger through the rectum, and one can move it back and forth on its joint, but practically never can one find anything wrong with it. After 50 years of studying these women, I feel strongly that their pain is much like a headache, and, like a headache, it is due to some nervous tension.

Alvarez

Many worried relatives of an insane person write asking about the operation of prefrontal lobotomy, and whether they should consent to having it done on their loved one. Naturally, I cannot tell them what to do because I do not know what the exact situation is in regard to their relative.

All I know is that a few years ago, in mental hospitals, many of the persons who seemed to have reached a hopeless stage, and perhaps were at times violent and hard to take care of, were operated on. In a moment the surgeon made a cut which separated much of the front of the brain from the back part. With this, the patient was likely to be much quieter and less aggressive. He might become somewhat of an automaton, so much so perhaps that he could be cared for again at home.

Partly because in some cases there are unpleasant results from the operation, few psychiatrists like it very much, and I understand that in recent years in most mental hospitals it is being used as seldom as possible.

At times, when in a courtroom I have seen psychiatrists differing decidedly as to the sanity of a man, I have thought to myself: If I were the judge, I would dismiss all the

experts and would send for the man's relatives and old friends. I would much prefer to hear what they thought of his sanity. They would know what is often most important of all, and this is, that of late he had changed markedly in his ways of thinking and behaving.

Often when a business man is able to keep passing as sane among the people to whom he sells in his store, his wife and children will know that something serious has happened to him mentally. Perhaps he, who was always kindly and soft-spoken, is now cursing his daughters obscenely, or he who was always a good churchman, is now cursing religion, or he who was always frugal, is now throwing his money about.

I remember well an associate of mine who had always been odd and eccentric and inclined to go into tantrums in which for a few minutes he would squeal with rage. For years I had forgiven him for these exhibitions because, after each one of them, he would grin at me in a sheepish way, and perhaps do some kind act to show that he was sorry. But when he started to go insane, he no longer was ashamed or sorry; he was mean. Hence I could no longer stand the nervous strain of working alongside of him, and I had to leave. A year later, when he began to write letters to the president of the United States and to tell people about his 10 gorgeous wives, his friends realized that he "had become too eccentric even for him" and had him committed.

I got to thinking of this the other day as I was reading Jerry Giesler's story of his defence of a man whose wife had had him committed, and later in court had brought in "a horde of psychiatric experts," all of whom testified that the man was incompetent and suffering from a form of mental degeneration that "would surely kill him within a year."

I think Mr. Giesler was very wise in not hiring another group of psychiatrists to testify that the man was sane. Giesler just called in the fellow's neighbors—the people who knew him best—and they testified that he was sane; they said his trouble was that he was at his wife's end because of annoyance from his wife. The jury agreed with the neighbors, and the man went free. Some five or 10 years later, Mr. Giesler met him and he still was sane!

## RULED 'UNINHABITABLE' AGADIR SEEMS DOOMED

AGADIR, Morocco (AP)—Earthquake-shattered Agadir apparently is doomed to become a ghost town—haunted by more than 12,000 dead buried under rubble or in mass graves. Six German scientists and engineers surveying the city for the Moroccan government said the former resort is uninhabitable. They said if a "new Agadir" is built, it will have to be elsewhere.

## GRANTS ASKED

## Land Barren Without Art, Music

A nation without art and music is a barren country, Jack Barracough, president of the Victoria Symphony Society, told Saanich council Monday.

He was appealing to council to increase its \$300 grant to the symphony which is in need of funds for its preservation.

Others who applied for increased grants were Dr. Robert Stark, president of the Victoria Art Gallery; Colin Graham, curator, and Joseph Wright of the Greater Victoria Celebrations Association.

**TABLED** Council referred all three applications for further discussion at a finance committee meeting.

Mr. Barracough said apart from cultural amenities, the symphony provided employment to musicians and was a factor in attracting people to live in Victoria.

Dr. Stark asked council to increase its grants to the Art Gallery from \$1,000 to \$2,500 to meet increased expenses for services provided to school children in the Greater Victoria area.

Joseph Wright asked council for a \$1,700 grant for the Victoria Day celebrations.

Reeve George Chatterton and Coun. Stanley Murphy are in favor of increasing grants to the three institutions by 50 per cent. Coun. Passmore opposes the increase.

## Cool Reaction To Protest By Orangemen

A protest against city grants to St. Joseph's Hospital building program made by the Loyal Orange Order Monday found little sympathy from city finance committee.

The Orange lodge here protested that St. Joseph's has received more federal and provincial construction grants than Royal Jubilee Hospital.

**BUILT MORE** They've received more because they have built more, said committee chairman Ald. Arthur Dowell, referring to a 120-bed expansion made in the past decade.

"There is no question about it, they give the same service to the general public as Jubilee does," observed Mayor Percy Scurrell. "The service is needed and it doesn't mean anything to us that they are a Roman Catholic institution as long as they are giving service to the public."

He pointed out that each of the four Greater Victoria municipalities will contribute to the building fund drive and each will have representatives on the hospital's board.

**PUBLIC HOSPITAL** A letter from St. Joseph's Hospital pointed out that the institution was a public hospital under the Hospital Act and is treated the same as any other non-profit hospital by the senior governments.

It also pointed out that Royal Jubilee Hospital is not publicly owned; a requisite demanded by the Orangemen for civic grants.

## Passes---'Badges of Servitude'

By CANADIAN PRESS

The South African government has never devised anything more infuriating to the black population than the pass system which has resulted in new and fatal riots.

Nothing in the government's policies of apartheid, or racial separation, raises such anger as the regulation requiring all natives to carry "reference books" giving their pedigrees.

Although the government's protests that no humiliation is meant by the documents—and that they are willingly carried by many whites—the natives continue to regard them as the badge of servitude.

After the system was extended to native women, crowds of more than 20,000 people demonstrated in 1956 and many hundreds were arrested. The government has moved slowly since then—but not slowly enough for the blacks.

## PASSES A-PLenty

For years African male natives have had to carry passes, permitting them to work in a certain place, letting them move from one place to another and allowing them to be outdoors after dark in white areas. They even carried passes permitting them not to carry other passes.

A constant irritant, the system results in about 500,000 arrests a year and there are regular "pass raids" by police on native sections.

Resentment grew more bitter after the government passed its population registration act, providing for "racial classification" of all South Africans of whatever color and ordering the use of identity reference books by women as well as men.

Women saw no difference between the identity books and the old-fashioned passes, and the females formed by far the greatest part of the crowds that began demonstrations in 1956.

Dr. Stark asked council to increase its grants to the Art Gallery from \$1,000 to \$2,500 to meet increased expenses for services provided to school children in the Greater Victoria area.

Joseph Wright asked council for a \$1,700 grant for the Victoria Day celebrations.

Natives felt that this was just another step in a white government policy to deprive them of what little political, social and economic gains they had made in earlier generations.

The government was putting the stamp of law on restrictive custom. In the eyes of the natives, things were getting decidedly worse instead of better because of the implacable hostility and determination of the white minority.

The identity-pass system is an essential part of the government's apartheid plan for establishing "five bantustans" or reserves in which the natives would enjoy a measure of self-government under white "guardianship." They will have no rights elsewhere in South Africa.

The attitudes of the government and native groups as well have been steadily sharpened by developments throughout Africa, where native populations are achieving independence on a continent-wide basis. The South African blacks, too, are sniffing what Prime Minister Macmillan called the "winds of change."

SONNY'S ON TARGET

Zooming his booming right hand on chin of Cleveland Williams, Sonny Liston is right on target in second round of heavyweight bout at Houston, Tex., Monday night. Muscular Liston, second-ranked con-

tender, followed up quickly to record technical knockout few seconds later. It was Sonny's 28th victory in 29 bouts. He is campaigning for a match with champion Ingemar Johansson.

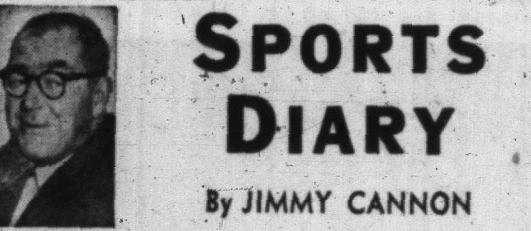

LISTON WINS AGAIN

JOE BROWN STOPPED

Anyone Think He Isn't Ready?

HOUSTON, Tex. (UPI) — 10th-ranked Cleveland "Cat" Williams. The Philadelphia brawler battered Williams to the canvas twice before referee Ernie Taylor called it off after 2.13 of the second round. The fight was the feature bout of a closed circuit television broadcast to San Antonio and Dallas. In San Antonio, Ray Por-

tilla, a local boy, scored a stunning upset with a technical knockout over lightweight champion Joe Brown in the sixth. It was a non-title bout. Williams, who weighed in at 215½, didn't give his hometown supporters much of a chance to back him. The fight was over even quicker than in their previous meeting last April in Miami. Liston finished that one in the third.

SPORTS DIARY

By JIMMY CANNON

VERO BEACH, Fla. — It must be a little like watching Prince Charlie playing soccer with the other kids in the school he goes to over in England. You can tell yourself Charlie's just a boy having fun but, unless something awful happens, how can you forget that he'll be a king? That's the feeling most baseball people get when they see Frank Howard taking his cuts with the Dodgers here. The kids who run into Prince Charlie and knock him over will be bending their knees to him some day. They must know, young as they are, that the next time they hear a band playing "God Save the King" it may mean Charlie. It is a sort of a secret the Dodger people carry around with them, the same kind of knowledge the Prince Charlie's teachers try to hide. Some of it comes out but they don't go all the way into it. You leave it alone, just like you don't go around measuring Prince Charlie to see if he's tall enough so he doesn't have to be lifted on the throne.

There are kids in every camp in Florida and Arizona who are not expected to make the big leagues. It would be silly to put Howard in that category. The people who run the Dodgers don't say so but they think that Frank Howard may be the greatest hitter in all the ages of baseball. If he keeps going, they expect him to hit more home runs than Babe Ruth did.

The last one exactly like him was Clint Hartung and he flopped. It's settled now and they'll never let him alone, just as they pestered Hartung, asking what was holding him back.

The Dodgers have already given him \$118,000 and, after two years of baseball with three clubs, he's 23 with a child on the way. Others have done as much and they're only remembered by those who made the mistake and called them Ruth or DiMaggio or Cobb or Feller. But they laugh at the recollection and, after a while, like Hartung, they get to be people in gags old reporters tell the young ones killing time on the trails.

Could Be First to Draw \$150,000

It's beginning and the national periodicals are doing articles on him. The television people want him and you can see him taking the bow on the Ed Sullivan Show or shaving in his undershirt on a taped commercial. The fees for the endorsements will be enormous, once he suggests what he should turn into, he could be the first ball player to get \$150,000 in wages. All this can happen to Frank Howard, and nothing. It's too early to tell.

The people like him. The tourists come out to the park, ask if the big first baseman who got the write-up in Life is going to play. They don't know his name yet, but they sure know he's here. Some of them never heard of him but when they see the six-foot, seven-inch, 247-pound of him they ask the hot dog mongers who the big kid is and where is he from.

The fielding's bad and the fly balls mix him up in the outfield. But they put him at first base and he shifts his feet like he's counting to himself. The Dodgers want him now, but they're not going to hustle it. Chances are he'll go back for another year. They're willing to run Gil Hodges, the best first baseman in the league, over to third base to make room for him. There's nothing they won't do for him.

The longest one Mickey Marile ever hit, they tell me, will look like a bunt when the young Prince is ready. In two years in such towns as Green Bay, Victoria, Tex., and Spokane he hit 82 home runs and the way they talk some haven't come down yet. I saw him last year as the season ended pinch-strike one in St. Louis. It was a line drive that made the centre-field bleachers.

He's got humility with it all and a dedication but he can't hit the low pitch that breaks outside. It is, they say, all that can stop him but that's plenty. He must handle that, or start looking around for a new business.

Maybe, they say, and wink on it, not this year, but just you wait until he finds the strike zone. This kid's got to be the greatest. But even Prince Charlie can't be called Your Majesty yet. The king racket is almost as tough as baseball.

Sailor Rinks Start 'Spiel'

OTTAWA (CP) — Sailors Norm Richardson, brother from across Canada, 32 rinks of Wes Richardson, of Saskatoon, began play in the four-day fourth annual kachewan, a member of the Royal Canadian Navy bonspiel, family team that won the Feature of the first draw Canadian championship two weeks ago, gave his Victoria rink a last-end 8-6 win over Cornwallis, N.S. (Cy Mann, of Cornwallis.

BROWNING TO NANAIMO?

Rumblings Behind Boxla Scenes

Warfare in the new Inter-City Lacrosse League season doesn't officially get under way until April 26, but sounds of undercover skirmishes are echoing around the four-team loop.

In fact, rival coaches and managers may be on the way to setting a new record for pre-season animosity because of suspicions that players are being tempted to switch allegiance.

Norm Baker, starting his sophomore coaching season at the helm of Victoria Luckies, is one guy who thinks there is too much going on behind the scenes.

And big Norm appeared as irritable as a grizzly with colic

Monday night. "There's supposed to be a rule against it," he growled, "but I'm sure somebody is tampering with my players. We start the season in another month and I'm still not sure who will turn up for training."

Norm didn't name names, but it is gossip in lacrosse lane that Vancouver is seeking the services of Don Hamilton, Victoria's reserve goaltender. It is also rumored that mainland bids have been made to four of the young stars who played a big part in the resurgence of Victoria Shamrocks last season and who are now attending the University of British Columbia—Ed Kowalk, Stu Smith, Tom English and Jack Showers.

Baker believes the student quartet will again line up with Victoria, but just to keep the Lucky camp a bit jittery are reports that the welcome mat is ready at Nanaimo if hustling Bob McKee shows an interest in moving north.

Labatts are apparently hoping to lure veteran Archie Browning, scoring star in the glory days of the Shamrocks, out of retirement. However, Luckies can have no squawks about Browning since the blond bomber sat out last season and is thus listed as a free agent.

Baker disclosed one bit of pleasing news. Transfer of Paul Parnell to Victoria has been ratified by the Canadian Lacrosse Association. The 185-

pound Peterborough, Ont., product can play either forward or defence and is rated a fine stickhandler with a blazing shot. "He should help us a lot," says Norm, who is predicting a second-place finish. "If we don't lose too many players."

Meanwhile, plans are proceeding peacefully for the third annual pre-season Shrine game between Nanaimo and Victoria, scheduled this year in the Hub City.

Shriners will meet with officials from the two clubs and press representatives at Nanaimo Wednesday night to announce final plans for the game, from which all proceeds will again go to aid Shrine charities.

Don't Count Totems Out In Title Race

Victoria High School Totems may have dropped Vancouver Island high school basketball crown but they are not counted out of the running to retain the provincial championship this week.

HEARTS MAY PLAY HERE AFTER VANCOUVER VISIT

VANCOUVER (CP) — Dave Fryatt, chairman of the British Columbia Soccer Commission, said Monday that Hearts of Midlothian will likely play an exhibition game in Victoria on June 6.

The famed Scottish first division team, which played in Vancouver in 1958, is already scheduled to play two games in Empire Stadium here. They will meet Manchester United of the English first division May 28 and the B.C. All-Stars on June 4. Both will be night games.

Perth Site Ideal

PERTH, Australia (CP) — An estimated \$7,000,000 investment in new sports facilities for the 1962 British Empire and Commonwealth Games is being made in this attractive capital city of Western Australia.

With nearly three years to go before the November, 1962, opening of the Games, preparations already are in full stride. An organizing committee has been formed, money voted for building stadiums and preliminary construction is about to begin. "We are going as fast as we can," said Jack Howson, secretary of the 1962 Games organizing council. "From now on there will be a gradual building up until the Games start."

Howson, treasurer of the Australian team at the 1956 Melbourne Olympics, said in an interview great enthusiasm has been shown in Perth for the Games. The city council and prominent local citizens were fully behind the Games.

Perth is laying on an entirely new sports outfit for the Games," he said. "The city council will provide the main stadium, swimming pool, cycle velodrome, and the Australian government is subsidizing construction of a Games village."

Town clerk Allan McInnes Green said work on a \$1,200,000 athletics stadium will begin in June and will be finished at least six months before the Games begin. The stadium would seat 50,000 spectators and would incorporate all the latest features for championships of world standard.

Construction of a \$900,000, 8,000-seat open air swimming pool is to begin in April.

LIKE VANCOUVER

Perth, which gained the games in preference to Adelaide, is considered by many as an ideal site. It is a clean, handsome city of approximately 400,000 population. To a certain extent it resembles Vancouver, site of the 1954 games, and like Vancouver, is at the extreme western end of the country. Perth residents claim an excellent climate and more sunshine than any other Australian capital city.

EASY VICTORY

Last year, the Vic High squad won the provincial title by a one-sided score of 49-26 against Courtenay in an all-Island final and there is a good chance the title will stay on the Island at least.

A total of 101 high school teams, members of the B.C. High School Basketball Association, played down in zone finals to decide the 16 to compete at UBC's War Memorial Gym for the annual George Spurling Trophy.

Chief mainland opposition to Island hopes will come from the powerful Vancouver College team and its star guard Mike Melanson, who scored 76 points during zone playoffs.

Danger is also expected from the ever-potent Abbotsford aggregation; Penticton, winner of 25 straight games this season; and Magee, the number two lower mainland squad.

Courtenay will start in the opening game Wednesday against Lumby and Alberni meets Penticton at 1:30 p.m. after the Prince Rupert-North Vancouver game.

Buckeye Buzzer

Aims at Olympics

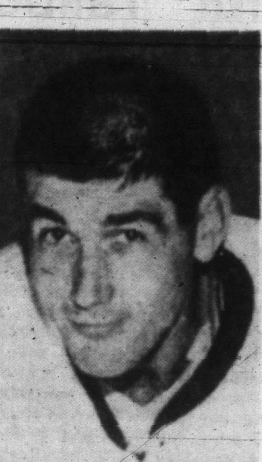

SAN FRANCISCO (UPI) — The "Buckeye buzzsaw," so powerful that it crushed favored California in a matter of minutes to give Ohio State the NCAA basketball championship, today has its sights turned on a trip to Rome.

Coach Fred Taylor will lead his towering youngsters into the Olympic playoffs at Denver, March 31-April 2, where they will run into more seasoned performers from the AAU and all-star college teams.

"We have three sophomores, one junior and one senior on our starting team," said the youthful Taylor. "But we might make up in conditioning and fight for what we lack in experience."

In whipping the favored California team Saturday night the sophomores showed and John Hagler, Joe Robinson, lack of experience. The victors and Larry Siegfried, Ohio final score was 75-53 — but State

LOU JANKOWSKI

... most goals

Victorias' Art Jones, getting back into high gear in time for the Western Hockey League playoffs, rated player-of-the-week honors in the final week of the regular schedule.

Jones collected two goals and seven assists for the Cougars last week to add nine points to his scoring total. His total of 79 points gave him fifth place in the league scoring race, 16 off the pace of Seattle's Guyle Fielder.

Fielder and Jones will be matching skill during the semifinal playoff between Seattle and Victoria, which opens Friday at Seattle.

SECOND GAME SATURDAY

Second game of the best-of-seven series will be at Memorial Arena Saturday night and the teams return to Seattle Sunday for the third tussle. Fourth game is in Victoria next Wednesday.

Fielder won his fourth consecutive Western Hockey League scoring title and his fifth in eight seasons with the league.

His 31 goals and 64 assists, for 95 points, topped his teammate Bill MacFarland by nine points.

BASSEN BEST GOALIE

Lou Jankowski of Calgary, scored the most goals, 42, and Rudy Filion of Seattle was runner-up with 36. Fielder's 64 assists were the most of any player. Jankowski was also top goalgetter last year with 45.

Hank Bassen of league-leading Vancouver, led the goalkeepers with a goals-against average of 2.48 a game. He also had the most shutouts, five. Emile Francis, Spokane, had the most stops, 1,922.

Frank Arnett, Seattle, had the most time in the penalty box for the second straight season, with 183 minutes. Bill Burge, Spokane, was second with 162 minutes.

Snooker Final

Britannia will meet Tillis in the Interclub Snooker League playoffs final Monday, at 7:30 p.m., at ANAP Veterans Hall. They earned the final spot with a 9-3 trouncing of Elks in a semi-final replay match.

MODERN GRANDSTAND FOR MAINLAND TRACK

VANCOUVER (CP) — Plans for a modern three-deck grandstand seating 5,000 for Lansdowne Racetrack here have been announced by racehorse owner Jack Diamond following his election as president of the British Columbia Turf and Country Club.

Diamond said construction of the stand is expected to begin after the 1960 racing season and it should be ready for the next season. A clubhouse is included in the plans.

Diamond succeeded A. L. McLennan as president. McLennan, who had held the position for more than 10 years, resigned to become chairman of the board.

Late Start on TV For First Games

Hockey fans in Victoria will be provided with only partial coverage of the Stanley Cup semifinals by the CBC.

Semifinal games, starting Wednesday, will be picked up an hour late and will come on about 6 p.m.

Television will be based on a policy of taking coverage to cities of the home teams in all games.

The opening game Wednesday in Toronto against Detroit will be televised on the full English network, starting 6 p.m. PST. Thursday's game in Montreal against Chicago, seven series have not been decided.

Final games will be covered in full on a cross-Canada network will go out from Detroit.

Pro Boot Loop In Few Years?

TORONTO (CP) — A professional soccer league composed of teams from across the country will be organized in Canada within the next few years, George Anderson, secretary of the Canadian Soccer Football Association, predicts.

In his report to the association's annual meeting, he said soccer has made tremendous strides in this country during the last 10 years. The time is not distant, he said, when Canada will be receiving invitations to send teams abroad. Instead of always being the host nation for touring teams, Dr. Victor Hagen of Winnipeg was re-elected president for the third year. Pat Nolan of Montreal is vice-president and Bill Simpson is Ontario delegate to the executive board.

William D. Cox, president of the new professional International League, which opens in New York May 25, attended Saturday's session. He said he hoped Canada would have a strident in the league next year.

Teams from Germany, England, Scotland, Ireland, Yugoslavia, Austria, Italy, Sweden, Portugal, France and the United States will form the two-division loop this year.

# Ousted Lecturer Awaiting Appeal

VANCOUVER (CP)—A Russian family lived in China until 1937, when it emigrated to Brazil under the auspices of the United Nations.

Miss Rebrin came to Canada in July, 1958, and held a Brazilian passport. The immigration department said some leeway has been given her to leave Canada voluntarily.

Dr. Norman A. M. MacKenzie, president of UBC, said he was caught by surprise by the news. He did not know Miss Rebrin well but "she seemed attractive and intelligent and thoroughly satisfactory in her work."

# Keenleyside Urges Control Of Tar Blast

Chairman of the national committee for radiation hazard controls, Dr. Hugh Keenleyside, head of the B.C. Power Commission and former UN undersecretary, Monday wired External Affairs Minister Green asking Canada's position be made "perfectly clear" in opposing the suggested Alberta tar sands atomic blast by the U.S. Atomic Energy Commission.

His telegram asked that Mr. Green advise the U.S. that Canada alone will authorize nuclear tests in Canada and that Canada has no intention of authorizing an atomic blast while nuclear talks are in progress.

He made his remarks apart from an address before the Victoria branch of the UN Association in which he said malaria could be wiped out in the world "for the price of one more battleship."

# Man Arrested By Stakeout On Whisky

An Oak Bay policeman hid behind a clump of trees at Uplands Golf Club close to 90 minutes last Dec. 11 before arresting a young man suspected of whisky theft.

The accused, John Clifford Isherwood, 19, first-year arts student at University of Oregon, Monday pleaded not guilty in Assize Court to a charge of theft over \$50.

Outlining the Crown's case, prosecutor Alan Macfarlane said a Liquor Control Board truck was making deliveries at the golf club about 4.15 p.m. on the day in question.

The driver was carrying liquor into the clubhouse a case at a time and discovered one case missing.

## SEEN NEARBY

The accused had been seen in the vicinity during the afternoon, the prosecutor said.

Oak Bay police were called, searched the grounds and found the case of one dozen 25-ounce bottles of whisky covered with leaves beside a clump of trees, he said.

One of the policemen stationed himself behind the trees, saw a car approach, stop and the accused get out.

Isherwood climbed a nearby stone fence, looked around, then bent down to the whisky cache. At this point he was arrested.

George Gregory is representing Isherwood.

## TRAFFIC FINES

In city police court Monday: Frederick B. Werhun, 827 Princess, \$50 for failing to remain at the scene of an accident and \$35 for driving without a licence.

Ian Lake, 924 Market, \$70 and licence suspension for failing to remain at the scene of an accident and \$35 for driving without a licence.

George Edward Crewe, 619 Raynor, \$15 for speeding over 15.

Roy Willson, 4000 Century, \$15 for speeding over 30 and \$10 for driving over a firehose.

# \$300,000 Ransom For Millionaire

SINGAPORE (Reuters)—Kidnappers who beat an aged Chinese millionaire unconscious and bundled him off in a high-powered speedboat were reported Monday to have demanded 1,000,000 Malayan dollars (about \$300,000) in ransom.

Tan Boon Khak, 74-year-old rubber company tycoon, was snatched Sunday in a daring daylight raid on the nearby Malayan mainland where he was spending a weekend holiday.

Two years ago Tan's son was kidnapped and has never been seen since.

Police said the kidnappers were dressed smartly in white yachting pants and peaked caps when they surrounded Tan's bungalow, beat him unconscious and carried him to a waiting speedboat.

# TORONTO TV 'BATTLE ROYAL'

TORONTO (CP)—The hottest public franchise contest seen in Canada for years was left in the hands of Dr. Andrew Stewart and his 14 colleagues on the Board of Broadcast Governors Monday.

They now must recommend to the federal government the licensing of one of nine private groups bidding to operate Toronto's second television station. Dr. Stewart, board chairman, said this will be done as quickly as possible.

At stake is the transport department authority to set up and operate Canada's biggest private-owned TV station—an operation which, according to most estimates, after four or five years could be yielding a profit of at least \$1,000,000 before taxes.

The board heard one estimate Monday—from the Toronto Star, one of the applicants—that in 20 years the new TV station here could be providing an annual profit exceeding the \$4,000,000 or \$5,000,000 original investment.

Two Toronto radio stations,

two syndicates with minority newspaper interests, one group controlled by a newspaper, one newspaper applying on its own behalf, a film producer, a book publishing house, and one heterogeneous group of Torontonians representing broadcasting and other fields have applied.

## TOPICS OF THE DAY

A public utilities commission ruling turns down a bid by Millstream Road subdivider A. H. Phelps to upset a Greater Victoria Water Board ruling requiring him to pay in advance for installation of water pipes at a 300-lot subdivision west of Thetis Lake Road. Mr. Phelps had argued that the board should install the pipes.

Canadian Labor Congress educational director George Home will discuss plans for a joint labor-CCF political party at an all-day seminar Saturday in Pandora Street labor headquarters.

It will be open to the public.

Langford driver Geoffrey Gordon Hett, 3084 Jacklin, was fined \$200 and \$6.50 costs when he pleaded guilty in Colwood RCMP court Monday to impaired driving.

His driver's licence was suspended for six months.

A group of Victoria West boys about 10 to 12 years old were sought by juvenile officers at the weekend after they exploded railroad track torpedoes by throwing stones at them in Victoria West Park a week ago.

Police said six torpedoes were taken from an old locomotive at the rear of CNR roundhouse last Monday.

Some of the boys were interviewed and four of the warning devices, containing a small amount of explosive, were recovered by police.

Eighteen-year-old Stanley Donald Shaw, of 1240 Glyn, was arrested and held in jail by city police at the weekend without being charged with an offence.

Shaw appeared before Magistrate William Ostler Monday and was freed with \$100 bail which he had posted Sunday.

Police arrested Shaw because of a Criminal Code provision providing for arrest of a peace officer suspected of being about to commit an offence.

Shaw was found at 3 a.m. Sunday near 515 Northcott, where previously there had been complaints of a prowler.

Greater Victoria's civil defence organization wants to contact all persons who have taken the CD first aid and home nursing courses in order to allocate personnel to advanced training centres to be established in event of a national disaster.

Personnel will be based at hospitals closest to their residential areas.

Graduates of the courses are asked to contact Mrs. B. R. Grant at EV-2-2279 as soon as possible.

Four men and four women will compete next Monday in the 14th annual "golden gavel" finals to be held in city hall council chambers at 8 p.m.

Final session Monday in the qualifying heats saw Dorothy Kynaston of Madrona Toastmistresses as winner. Runner-up was Margaret Benbow of Arbutus Toastmistresses.

The events are sponsored by the area Toastmaster clubs.

Close to 200 students from four Greater Victoria high schools will attend the second job-counselling session Wednesday from 7 to 9 p.m., sponsored by the National Employment Service.

Fifty counsellors from all walks of life will be on hand to advise students concerning vocations.

The third and last session will be held April 6.

By this time more than 600 high school students will have benefitted by the sessions, held at NES offices.

Free program of recorded music at the Victoria Public Library Thursday at 7:30 p.m. will feature six German dances by Mozart and Haydn in Italy by Berlioz.

Annual Family Night Carnival of Colquitz PTA will be held at the school Friday from 7:30 to 9:30 p.m.

The carnival will be opened by Mrs. A. B. Thompson, regional PTA representative and Saanich school trustee. Conveners are Mrs. Ada Bone and Mrs. Freda White.

Stalls will include home-cooking, sewing, games and other features.

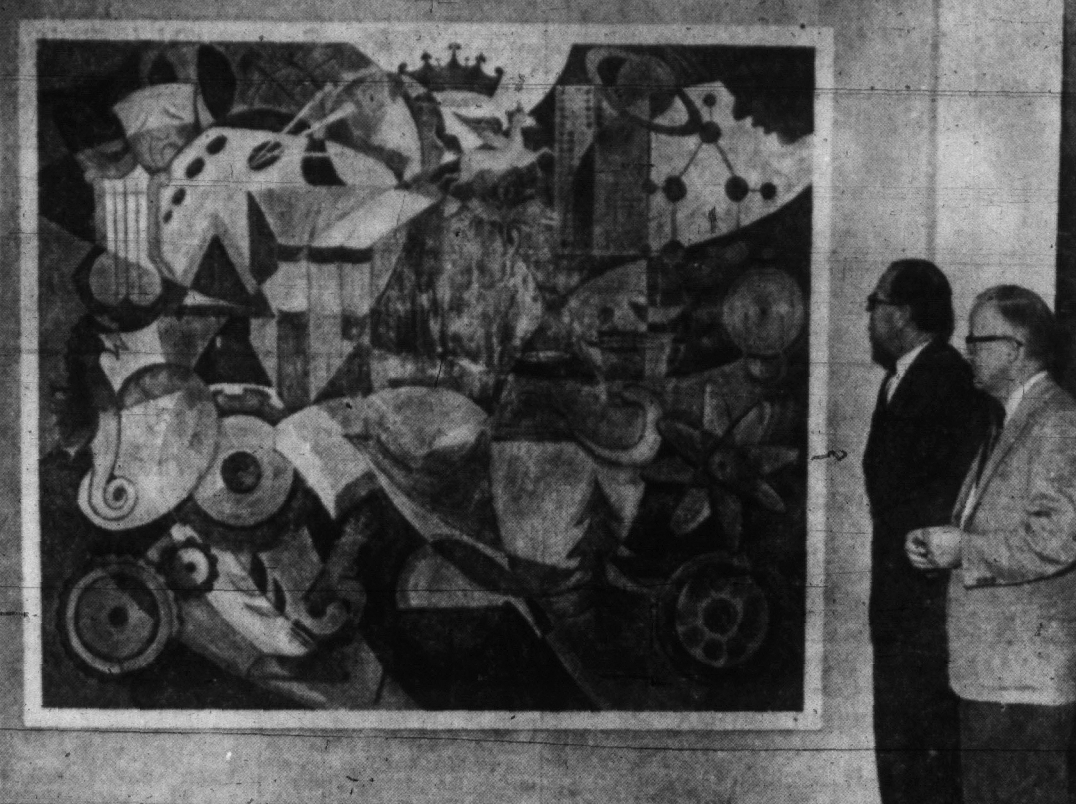

Saanich has launched a survey of all septic and sewer disposal tanks in the municipality.

The survey was ordered by council as the result of complaints that septic tank drainage in some areas is a serious menace to health.

Municipal engineer Neville Life said the majority of complaints came from residents in small subdivisions.

Robert Jones, of Nanaimo, today is still in a coma at the Royal Jubilee Hospital.

The boy suffered head and chest injuries Saturday when hit by a car outside his home. He was first taken to Nanaimo General Hospital and then brought to Victoria.

## Marine Drive Extension Asked by Reeve

Saanich today asked the Capital District Improvement Commission to extend Marine Drive from the Oak Bay boundary to Sinclair Road at Cadboro Bay.

Reeve George Chatterton suggested the road improvement program at a CDIC meeting called to consider beautification projects in the four municipalities.

Last year the CDIC completed improving Greater Victoria's marine drive from Dallas Road to Uplands Gate, Peach Drive. The project started two years ago.

The reeve said the Drive should be extended to Cadboro Bay Park which is to be enlarged this year.

Cadboro Bay Park would act as a terminal for the marine drive until the route is extended farther east along the coast," he said.

Giving the lead to Greater Victoria service clubs, the Victoria Gyro Club has pledged \$500 a year for five years towards the building fund for Victoria University.

Membership endorsed the move "100 per cent" at a meeting Monday.

"We know it will be a most worthwhile project," said secretary William (Bill) Hudson.

Projects to raise the total \$2,500 are yet to be worked out.

## 4-Mill Tax Hike Looming Larger

Public Works, Wage Boosts Pose Biggest Problems for Aldermen

By JOHN MIKA

Prospects of a four-mill tax increase for city ratepayers may rise higher this week.

That became apparent when finance committee completed its estimates Monday, adding a proposed \$36,100 increase to the \$166,192 boost in parks committee estimates.

With \$202,292 more in the estimates this year already, over two mills for municipal purposes may be added to the two-mill increase expected for school purposes.

Two factors may further increase the boost in municipal spending before city council begins final hacking at the budget next month.

**MORE WAGES**

Public works, the largest spender, still has to go through estimates, and any increase it brings will be added to the total. Negotiations with the civic unions may wind up with higher salary requirements.

Actually, a two-mill increase for municipal purposes will create even more taxation than it would have last year because each mill will reap about \$98,000 city controller Dennis Young predicted. Last year one mill brought in only \$92,000 in taxes. Bigger assessment roll totals account for the difference.

**CUT, CUT, CUT**

Grim prospect of a heavier levy this year was evident during finance committee's discussion of a proposal to buy an ambulance for the fire department.

**IT WAS NO PICNIC FOR VICTORIAN WHO PILOTED CORAL SEA**

## He Had a \$300 Million Load on His Mind

By NORMAN CRIBBENS

It was a lot of fun but no pleasure cruise!

So says Capt. Walter A. Gosse, burly, good-humored pilot of the B.C. Coast Authority, who had the job of guiding the monster aircraft-carrier USS Coral Sea from Victoria to Vancouver and back.

On the return trip to Victoria the 63,000-ton carrier ran into fog in the Gulf of Georgia, and it continued thick and heavy right through to Esquimalt, Saturna Island.

Not a very restful experience for a veteran pilot, who knows the perils of the gulf. Capt. Gosse, a pilot of nearly 30 years' experience, born and

## 2 Boys Blamed In Big Mill Fire

Last month's \$200,000 fire at the Crowe Gonnason mill has been traced to two juveniles, an official source said today.

Investigation is continuing to determine whether or not the boys caused the blaze accidentally or deliberately.

No charges are pending, the official said.

The vacant 69-year-old waterfront landmark was destroyed in a spectacular blaze Feb. 27 that was watched by thousands of Victorians.

## CRIME CHECK OF CARS AFTER MIDNIGHT

As a precautionary measure against further break-ins, thefts and safe-crackings, Chief Constable John Blackstock said Monday city police are now checking cars seen on downtown streets after midnight.

City police, he said, are intensifying measures to crack a crime wave in the Greater Victoria area. Last week there were four safe-cracking and attempted safe-cracking jobs in the city.

## Mayor to Ask Fast Decision On Car Park

Mayor Percy Scurreh today said he will ask city council to make a decision on the revised View Street car park and mail project this week.

"I propose to ask council Thursday to decide whether or not we should hold an area or city-wide vote and to authorize the city solicitor to draft a new money bylaw for the vote," he said.

"Personally, I am in favor of an area vote."

If council agrees, that will mean that downtown property owners only will vote on the bylaw and if it passes the other ratepayers will not be involved in guaranteeing the bonds.

"We have what we asked for in new provincial legislation and we're going to push the project just as fast as it is legally possible."

The legislature amended statutes to permit the city to hold an area vote, expropriate property for the project and build the car park over View Street.

## U.S. Sailors Get Leave Here This Weekend

About 400 U.S. sailors will enjoy shore leave in Victoria this weekend.

The men are serving in the destroyers USS Edmonds and Charles F. Brannon, which are due at 1 p.m. Friday for a goodwill visit.

Host ship for the visitors will be HMCS Beacon Hill, and a program of sports and entertainment has been arranged.

Commanding officers will make official calls on the mayor of Victoria and reeve of Esquimalt.

The ship will leave at 7 a.m. Monday.

## Victorians Import Fortune in Plants

Victorians must rank among the most tree and shrub conscious people in Canada, according to federal plant inspection service and customs department officials.

Records show they report that 78,000 ornamentals valued at about \$80,000, have been imported to Vancouver Island from overseas so far this year to meet the demands of plant lovers.

In addition to imports, Victorians also buy thousands of locally grown trees and shrubs from nurserymen.

## Accident or Arson? Probers Don't Know

Last month's \$200,000 fire at the Crowe Gonnason mill has been traced to two juveniles, an official source said today.

Investigation is continuing to determine whether or not the boys caused the blaze accidentally or deliberately.

No charges are pending, the official said.

The vacant 69-year-old waterfront landmark was destroyed in a spectacular blaze Feb. 27 that was watched by thousands of Victorians.

## DELIBERATE

However, investigators have determined that a small fire at the mill this month was deliberately set.

An unidentified youth is suspected of setting afire some tarpaper lining March 16 in a shed adjoining the mill's office building on Government Street. Firemen put the blaze out quickly after a policeman spotted it.

"The second fire was deliberately set and a charge will be laid if the culprit is apprehended," an investigator said.

## "NO ARSON"

Meanwhile, Central Saanich Fire Chief C. E. Rowles today said an investigation into a \$1,700 fire that destroyed a barn at Brentwood Auto Court last week has been closed.

"No arson was established," he said. "The owner, Dr. J. P. Ellis has been cleared of any suspicion."

## Road Deaths Doubled

B.C.'s highway death toll this year has more than doubled compared with the same 1959 period, it was revealed today by the B.C. motor-vehicles branch.

Deaths from Jan. 1 to Feb. 29 stood at 41, up from 20 for the same period last year.

Fatalities for February alone this year stood at 19 compared with six in 1959.

The January toll this year was 22 deaths, compared with 14 for the month last year, second only to Ontario, which had 61 traffic fatalities during the month.

Traffic accidents throughout Canada claimed 137 lives in January.

## Fines of \$175 For RCN Sailor After Wild Ride

Naval seaman Jack Edward Grover, HMCS Skeena, was fined a total \$175 when he pleaded guilty in city police court Monday to charges arising from a series of accidents on Johnson Street at the weekend.

Police accused Grover of failing to remain at the scene of an accident and careless driving, which drew fines of \$100 and \$75 respectively before Magistrate William Ostler, who suspended the driver's licence.

Grover drove east on Johnson, sideswiped a car driven by Des O'Brien, 1321 Finlayson, sideswiped another driven by Dale Pearsall, 3329 Oak, both between Blanshard and Quadra; then sped off at a high rate without headlights.

Police said Grover failed to stop at Quadra, where there is a stop sign, and was in collision with a car driven by Colin Nichols, 3755 Cadboro Bay. His car finally came to a stop on the sidewalk on the south side of Johnson, 100 feet east of Quadra.

The import figure does not include daffodil and tulip bulbs. These are imported in the fall.

Mr. Brown whose job is to check all plants, including seeds for diseases and insects, said there are few insects.

In addition to imports, Victorians also buy thousands of locally grown trees and shrubs from nurserymen.

G. Stewart Brown, federal officer in charge of plant protection, said there are few insects.

## HAWKINS 'MOVED'

## 14 Suburbs In Search Of a City!

Less than three weeks after he took over the job of commissioner for the Victoria and Island Publicity Bureau, William E. Hawkins, Jr., has found himself "moved" to Vancouver—and by an internationally-known magazine.

The current issue of Sports Illustrated, commenting on the recent debate as to whether fishing derbies are legal (games of skill, or chance?), describes Bill as "Vancouver's publicity commissioner."

"My friend George Warren tells me I'll just have to get used to it," Mr. Hawkins chuckled today.

"I think we ought to get Sid James (managing editor of Sports Illustrated) out here to catch a salmon—he'd never forget Victoria."

"After all, what is Vancouver? Fourteen suburbs in search of a city."

**SECOND VICE-PRESIDENT**

Canadian Association of Real Estate Boards, Bert Katz, will address executive officers of Greater Victoria real estate companies Wednesday at 6 p.m. in the Union Club. He is also meeting with real estate executives elsewhere on Vancouver Island and the lower mainland.

## ASK THE TIMES

Q. Could you please tell me when the Atlantic ferryboats will be ready for maiden voyages? I want to book passage. K.D.

A. Assuming you mean when do cross-Atlantic sailings start from the Port of Montreal—first sailing from Montreal is April 12 by the Empress of France; the Saxonia leaves April 14. The CPR operates the first vessel, Cunard the other.

Q. Does the government recognize common-law marriage and pay widow's allowance to a veteran's common-law widow? C.S.H.

A. Yes, though there are certain qualifications such as being known in the community for a period of seven years as man and wife.

Q. Could you please tell me if there is a market for guinea pigs? B.R.

A. Some children keep guinea pigs as pets. They can be sold to pet shops by breeders. Also, the rodents are used by laboratories for certain experimental purposes.

## Home Fire Extinguishers Minimize Fire Dangers!

By PENNY SAVER

Having had a healthy respect for fire hazards ever since time I left the family to baby-sit a turkey and it went up in flames—I couldn't help wishing that we'd invested in one of the handy fire extinguishers I saw today. Extinguishers consist of a 16-ounce can with easy-to-use push nozzle and are priced at a low \$1.79.

At such a nominal price, you'd be wise to keep one in the home, family boat and car. They're good for electrical, grease, oil, wood, fabric and other incipient fires.

These handy little gadgets are ideal, too, for trying out wet ignition systems either in a boat or car.

Spray the coils, wires, spark-plugs and distributors with extinguisher solution and you'll be mobile again in no time at all!

If like many other Victoria housewives, you're smack in the middle of spring cleaning chores and wondering how to remove wallpaper—this is for you! Remover solution which sells at 50 cents for an eight-ounce bottle will cut down many hours of scraping and elbow grease.

Simple to use, pour contents of bottle in a standard pail of warm water, stir gently until mixed, then brush or spray mixture liberally until paper is wet through. Strip with scraper and wall will be free of old wallpaper and ready for you to try your new color scheme.

When spring sunshine lights up rooms in the house, more than ever we become conscious of need to instill warmth and gaiety into furnishings. One sure way to make our home more inviting is careful use of lighting fixtures.

Planter lamps I saw today are ideal and would add a touch of the personal with their generous arrangements of healthy, green ivy plants that are already planted in mottled ceramic bases. Bases come in shades of yellow, green, turquoise, yellow and orange and form perfect foils for washable fibre glass shades in ivory. Lamps add about two feet high and are extremely good value at \$14.95.

For information on any of these items phone Penny at EV 23131.

## TODAY'S RECIPE

## PECAN FINGERS

One cup butter, 1 cup sugar, 2 eggs, 3½ cups sifted all-purpose flour, 1 teaspoon baking powder, ½ teaspoon salt, 1 egg yolk, 1 tablespoon milk, ½ cup finely chopped pecans, ¼ cup sugar.

Cream butter; blend in sugar. Beat in eggs. Sift flour, baking powder and salt together; gradually add to butter mixture, mixing well. Chill dough thoroughly. On lightly floured board, roll dough to ¼ inch thickness; cut into 1x2-inch rectangles. Beat egg yolk and milk together. Brush cookies with egg mixture; sprinkle with combined pecans and sugar.

Bake in a moderate oven (350 degrees F.) 12 to 15 minutes. Cool; top each with dab of tinted or chocolate butter icing and pecan half. Makes 9 dozen.

## Club Women's News

**Tribute**—Members Liberal Women's Forum paid tribute to the late Archie Gibbs MLA for Oak Bay, at a recent meeting. Mrs. H. I. McKenzie presided. It was decided that a letter be sent to Premier W. A. C. Bennett regarding drug addiction, with suggestion of setting up memorial to Mr. Gibbs who worked for many years on this problem. Plans were made for a tea and sale of home cooking to be held at Hudson's Bay Douglas Room Wednesday. Mrs. E. McKenzie will be convener. A musical program featuring Mrs. J. Slater and Mrs. C. C. Hunter vocalists, accompanied by Mrs. F. Decker will be given. Tea was served by Mrs. J. T. Jones, Mrs. M. Kendall and Mrs. A. Ketchell.

**Conveners**—Appointed to convene committees, at recent meeting of Alden Harbor Chapter, IOOE were Mrs. J. A. Dunn, publicity; Mrs. J. H. White, Empire and World Affairs; Mrs. N. Lockyear, citizenship and immigration. Mrs. M. Kendall, regent, presided. Educational secretary, Mrs. C. Medley reported books to value of \$8 were sent to Quick School, Telkwa. Also, three records to value of \$7 sent to school at Cerebral Palsy Clinic. Members were reminded of Joint Penny Sale to be held Thursday evening at 8 p.m. in headquarters. Mrs. Kendall was appointed delegate to provincial annual meeting in Vancouver in April.

**Welfare Work**—Victoria Jaycee-ettes voted to donate \$70 for electric range for widow with four children, \$25 for a bed-closet for another welfare family and \$100 to be spent on 15 pairs of shoes, and a case of special formula and household items for other needy families in area at recent meeting. Club will spend \$50 on combination radio and record player for dining room of Sunshine Camp. Plans were made to paint outside of camp's buildings this spring. Used baby clothes and household equipment were donated by members for needy family of eight. New robe for the annual queen crowning ceremonies at the Parliament Buildings will be purchased by club.

## WHY GROW OLD?

By JOSEPHINE LOWMAN

## Boredom—It Shouldn't Happen to a Dog—But Did

I always knew that boredom could make a person sick, but I never knew until recently what it can do to a dog.

I have just recovered from what I call "The Plague." I do not know whether it was Asian flu or some other worse kind which they have not yet named. Maybe I invented it. It kept coming back when I thought I was well.

I am almost never sick and go for years without a cold so that my poodle was unaccustomed to seeing me remain in bed for days at a time. I must admit that my dog is spoiled but she is so rewarding and it is so much fun to spoil her that it is worthwhile.

Anyway, Pooh (I named her that for Milne's Pooh Bear) follows me about constantly and understands everything I say to her. I will say, "Pooh, I've got to work. Want to go with me?" She dashes into my study. I say, "Let's go upstairs." She runs upstairs. I say, "Do you want to play?" She goes excitedly to get the tennis ball which I bounce for her to catch about 100 times each day.

After I had been in bed for a couple of days I noticed that Pooh was acting in an awfully strange way. She is usually very peppy but she just lay on the floor all day long as though she did not have an ounce of energy. ## DEAR ABBY

## 'The Same Old Grind'

By ABIGAIL VAN BUREN

DEAR ABBY: Please tell GRINDER'S WIFE she is not alone. I married one of those grinders 18 years ago and he is still grinding. I'll never forget the first pair of hand-em-broidered pillow cases I ever owned. They had the nicest little crocheted edges on them. In one week my husband had chewed all the crocheted work off the pillow cases.

I later found out that all his sweetness, kindness and generosity was just an act. He was really mean, selfish and stubborn. And he showed it in his sleep by grinding his teeth. One of these nights I'm going to knock his teeth out.

"GRINDER'S WIFE NO. 2"

DEAR ABBY: I was surprised when I read in your column that a woman signed "GRINDER'S WIFE" asked what could be done about a husband who had been grinding his teeth in his sleep, and you replied: "Nothing... get used to the same old grind."

Abby, that condition is commonly known as BRUXISM and can be corrected by a competent dentist. An appliance is made to fit over the teeth and will eliminate the grinding. It is worn at night only.

A.F.H. (D.D.S.)

## Tea and Sale Held at Ganges

A sale and tea was held by Women's Association, United Church, Ganges recently. Convener was Mrs. C. W. Leggett and guests were received by Mrs. F. H. A. Reid, president. Tickets were taken by Mrs. H. Ashley.

On tea-committee were Mrs. J. Catto, Mrs. G. Wallis, Mrs. S. Wagg, Mrs. Leggett and Miss O. Mouat.

Stalls were featured, including needlework, convened by Mrs. E. Parsons, assisted by Miss J. Overend; home cooking, Mrs. C. Zenkie and Mrs. F. Clarke, and white elephant, Mrs. J. D. Reid and Mrs. A. Olsen.

DEAR ABBY: My wife used to grind her teeth in her sleep and it just about drove me buggy. When I'd tell her about it in the morning, she'd say I was crazy. I finally went to the sports equipment store and bought one of those mouth guards like the boxers and football players use. I got her to wear it one night. In the morning it was all chewed up. That settled it! Now I don't let her in bed until she puts that guard in her mouth. This has improved our marriage 100%.

THE WINNER

DEAR ABBY: I used to grind my teeth at night and here's how I cured myself. I'd put a piece of tough penny bubble gum in my mouth at bedtime. I'd chew and chew and chew. Guess I just tired my jaws out. Anyway, after a while I quit grinding.

EX-GRINDER

DEAR ABBY: Teeth grinding is just a habit. When my husband used to grind his teeth in his sleep, I'd give him a good poke in the ribs. He'd wake up and yell, "Stop it!" Then I'd tell him to stop grinding. He'd say he wasn't grinding. It was all my imagination. Then I'd tell him that I didn't poke him. It was HIS imagination. He cut it out in a hurry.

CHEF POKER

DEAR ABBY: The person who grinds his teeth at night should see a doctor, not a dentist. That man could have worms. Some adults have

them for years and don't know it.

HAD THEM AND USED TO GRIND

PARIS in the Springtime

Maggi Rouff designs for spring, a coat at left with the new, high-fitted look, made in a soft tweed of Orlon acrylic fiber and wool in a dynamic jade green. Two patch pockets placed well up on the bodice, give an indication of a waistline, in contrast to the loose silhouette of the coat

in back. In the youthful collarless suit, right, Cardin combines a long line with a rounded effect, achieving it by means of a curved peplum, dropped shoulders and loose sleeves. Using bright red tweed of Orlon acrylic fiber and wool, he expresses his special affinity for color. (N.E.A.)

## 'Slow Curve' Spring Silhouette

This spring is not a drastic one for fashions from Paris. A summing up of the Paris collections, shows that what the gals will get this year is the slow curve.

This includes the princess line, plenty of pleats, the long torso and the flatter bustline, sponsored by the House of Dior.

Color is both vibrant and impressive. Bearing out a trend which started in the earlier American collections, Parisian designers have emphasized

white, chalk, cream, ivory, black-and-white and followed these shades up with a whole range of blues from light to navy.

There are many greens, lots of beige and brown, red (which runs from pale pink to deep lacquer red) and violet from pale to mauve.

## Toastmistresses Speak On Irish

Taking background of their talks from the Irish, four members of Arbutus Toastmistress Club spoke at recent meeting. Mrs. S. McCulloch's topic was "The Unknown Englishman: A History of Life of St. Patrick." Miss Molly Renny; "The Irish Potato," Mrs. C. Fensham; "The Emerald," and Miss Winifred Reay, toastmistress, "St. Patrick's Day."

Mrs. H. Ker presided and Mrs. W. Young, timer, gave inspiration. Table topic mistress, Mrs. G. Donaldson, led topic on bonus stamps. A lesson on the importance of evaluation and criticism was given by Mrs. J. Gillis.

Introductory speech was given by Mrs. R. H. Holly.

Speech evaluators were Mrs. G. Benbow, Mrs. M. J. Chaplin and Mrs. A. E. Mourant. Lexicologist was Mrs. Ker and Mrs. R. M. Williams thanked speakers. General evaluator Mrs. F. Dearman awarded oscar to Miss Reay and spur to Mrs. Fensham. Closing thought was given by Mrs. Ker.

## Diamond-Studded Cross Gift to Recent Bride

A white gold cross, studded with diamonds, gift of groom, was only jewelry worn by Miss Barbara Ann Tindell for recent marriage to Anton Johan Ratzka in St. Luke's Anglican Church. Bride is daughter of Mr. and Mrs. John A. Tindell of Victoria. Groom's parents are Mr. and Mrs. A. Ratzka of Germany.

Pink and white carnations were on altar and baskets of jonquills, daffodils, iris, and greenery decorated church for double ring ceremony at which

Mr. and Mrs. S. K. Crawford of Victoria, wish to announce the engagement of their youngest daughter, Patricia Marie, to Clifford John Coulter, son of Mr. and Mrs. J. Coulter, of Kenora, Ont. Wedding will take place Friday, April 8 in Oak Bay United Church. Rev. A. Calder will officiate. Miss Crawford has chosen for her attendants, Mrs. Arthur Carey, Saskatoon as matron of honor; Miss Maureen Crawford, sister of bride-elect, and Miss Helen Nettelfield, bridesmaids. Cathy Carey will be flower girl. Best man is Orr Coulter, and ushers, Robert Coulter and Norman Murphy. (Souvenir Photo.)

## White Lace Gown Worn by Bride

White lace over taffeta formed afternoon-length gown of Miss Suzanne Carol Walton for her marriage to Richard Valentine (David) Snape in the Church of Our Lord, Saturday.

Chapel-length veil was held in place by a tiara of sequins and pearls. Bouquet was of white roses and freesia.

The bride is daughter of Mrs. Bertram Walton, 411 Vancouver Street, and the late R. Walton. Groom's parents are Mr. and Mrs. Richard H. Snape of 1120 Tattersall Drive.

Bishop D. A. G. Rankin officiated at afternoon ceremony. Bride was given in marriage by her uncle, Roland Perrin.

Miss Barbara Walton, sister of the bride, was only attendant. Gowned in blue lace over taffeta, she wore a hat of matching net, encircled with blue and yellow flowers. Colonial bonnet was of white and yellow carnations.

Mother of the bride, Mrs. Walton, wore a flowered beige silk gown with beige accessories and corsage of pink roses. Groom's mother chose a navy blue two-piece dress with navy and white accessories. Corsage was of pink roses.

James Leamy, brother-in-law of the groom, was best man and ushers were Brooke Stephenson and Brian Hamilton.

Anthony McGowan, Vancouver, uncle of the bride, proposed the bridal toast at a reception in Oak Bay Beach Hotel, following the ceremony. James Leamy gave a toast to the bridesmaid.

For a honeymoon trip the new Mrs. Snape chose a grey suit with pink accessories. Corsage was of pink roses. On their return, newlyweds will make their new home in Victoria.

## Push-Button Mating Works

NEW YORK (UPI)—Twentieth century electronics have come to the aid of a ritual old as mankind—the mating game. The mechanical brain to some degree even measures sex appeal, that quality which makes a Marilyn Monroe into a global institution, says Lee Morgan, a graduate sociologist.

Miss Morgan, a brown-eyed brunette in her early 30s, and happily wed, is founder and director of the Scientific Introduction Service, Inc., an organization which uses the push-button as well as personal approach to help those searching for a mate.

Miss Morgan, a graduate of New York University, said that in four years she has directed the service, she has introduced between 5,000 and 6,000 persons—most of them in their 20s and 30s. The marriage rate runs "between 10 and 15 per cent."

# National Officer Stresses Need For Better Church Work Program

Lack of good program was one reason given by Miss Beatrice Wilson, executive secretary of the Dominion Council of Women's Association for lack of members in women's organizations within United Church of Canada. Addressing annual meeting of Victoria Presbyterial Woman's Association in Metropolitan United Church, Monday afternoon, she said, "Let's face it, more than half the women of the church don't like us!"

Outlining proposed organization which is slated to come into effect on January 1, 1962, and which will be a combination of the Women's Associations and Women's Missionary Societies, she stressed one of requirements would be that of providing programs to attract new members.

"After all," she continued, "women's work in the church is of prime importance. We're not small peanuts. Last year Women of the United Church of Canada raised over \$7,000,000. Nobody's going to kill the goose that lays the golden egg!"

Mrs. J. G. Howes, president of Woman's Association of Metropolitan Church, welcomed delegates to the day's session. Mrs. A. H. Sheard, of the First United Church's Women's Association, gave devotional.

Rev. Laura Butler installed new presbyterial officers. They are: Mrs. C. W. Davies, president; Mrs. W. H. Yardley and Mrs. F. G. Matkin, vice-presidents; Mrs. A. E. Burkholder, recording secretary; Mrs. R. E.

Hindley, corresponding secretary; Mrs. E. L. Fuller, treasurer; Mrs. E. Mileham, life memberships; Mrs. W. Pattie, literature; Mrs. Yardley, press; Mrs. V. A. Beaumont, devotions; Mrs. W. W. ## Is Your English Holding You Back?

"Many intelligent men and women are held back in their jobs and social lives because they use poor English or can't speak and write effectively," says Don Bolander, director of English at Career Institute, Chicago.

"Adults who realize that their English is holding them back use our new home method to stop making embarrassing mistakes in English, to improve their writing, to increase their vocabularies, to speed up their reading, to acquire the techniques of fluent conversation. But the use of effective English pays off in unexpected ways," says Bolander, "because language is a tool of thought as well as a tool of expression."

"You use words with which to think. The more you learn about words and how to arrange them to express your ideas, the better your thinking becomes. The improvement of your English—including your thinking—can lead to amazing personal achievements."

For those interested, Bolander has made available a free 32-page booklet that tells how you can gain the ability to speak and write like a college graduate, in your own home. Just put your name and address on a card or letter and send to Don Bolander, Dept. VC-1, 30 East Adams, Chicago 3, Illinois. The booklet will be mailed promptly with no obligation, of course.

**CHATTER**—As per my promise in this column a short while back here are the details concerning the March 31 live telecast of Talent Caravan from the Royal Theatre.

First of all, tickets may be picked up now at radio station CKDA. The show will go on at 5.30 in the afternoon but those wishing to see it must be in their seats no later than 5.15. Best of all, possibly, those within camera range will be able to sit before their sets at home that night at 8.30 and watch themselves on Channels 6 and 2.

Local performers will be operatic soprano Ruth Champion, Jane Bowering and Peter Kelch, who will dance a pas de deux; accordionist Rine Kirchner—all from Victoria; Tara Doherty, a modern dancer from Saanichton, and a five-man rock 'n' roll group from Nanaimo.

**YES, IT LOOKS AS THOUGH** the CBC is going to be able to secure the film of Princess Margaret's marriage to Antony Armstrong-Jones the same day it takes place, namely May 6.

News sources state that the ceremony will be televised live to 13 other countries in addition to Britain—France, Luxembourg, West Germany, Monaco, Belgium, The Netherlands, Austria, Switzerland, Sweden, Norway, Finland, Denmark and Italy.

In fact it looks as though it will be exactly as one British official claimed, "the biggest TV audience ever."

North Americans will be able to hear a sound commentary over the short-wave North American Service of the BBC.

**THE CBC HAS SUBMITTED BIDS** for exclusive Canadian rights to telecast Big Four and Western Inter-Provincial Football Union games on its TV network in the 1960 season.

"By submitting bids now," said A. K. Morrow, CBC's director of English networks, "the CBC is hoping to make an early start in arranging the best possible football coverage for Canadian sports fans."

## MARGARET'S WEDDING CAKE

# Everything But Raisins

LONDON (CP) — Ronald Adams, the small-town baker who will manufacture Princess Margaret's wedding cake, spent a busy weekend drawing up one recipe after another and all went into the waste-basket.

"I'll probably do 500 before my cake finally goes in the oven," says the proud baker of Morecambe, Lancashire. "It must be perfect."

The 46-year-old champion confectioner of England and Wales was given the job after he wrote to Clarence House to offer his services. And he has decided that no matter how much the cake costs—and it won't be cheap—he will not accept a penny from the Princess.

"It's the honor that counts." All he knows so far is that the cake must be "symmetrical, graceful and white." Soon he expects to be told of the required size. Then he will begin buying supplies.

"There will be everything to give the cake an exquisite flavor," says the stocky baker with a grin. "There will be—

um, brandy, maraschino, butter, eggs, praline, stripped and ground almonds, orange and lemon-zest, candied peel, orange peel and citron-peel."

All fruit will be the hand-picked variety, including currants.

But the cake won't have any raisins. Adams doesn't like raisins in his cakes.

He said he would prefer to spend three months on any major project such as this "but no matter how much sleep I have to miss, it will be ready on time."

'DISGUISE' of off-duty policeman Marie Clirle, 32, proved a shock for wild driver Romulo Aldomovar in New York Sunday. After sideswiping Marie's car, three-mile chase and some gunfire, Aldomovar was pinched for drunken driving, and leaving the scene of an accident.

## IT HAPPENED LAST NIGHT

By EARL WILSON

NEW YORK — How are your ears? Bad or good, don't have 'em remodeled.

Perry Como tossed a party for his guest star Bing Crosby at which Bing remembered to the delight of all listeners, how he almost missed a career because his ears were too big.

"A Hollywood casting director," said Bing, "recalled across a table at Danny's Hideaway, 'said 'You won't do — your ears are like airplane wings.'"

"He said when my ears were flapping I had a wingspread as big as the King Ranch in Texas with all the gates open."

Later another director took a chance on me but glued my ears down with spirit gum. They pressed my ears back with a tight band around my head until I looked like a frightened whippet."

Bing finally walked off a picture in rebellion and they called him back and allowed his ears to be themselves. Some other actors who submitted to plastic surgery wound up with beautiful ears — but never worked again.

## QUEEN ASKED TO SETTLE CHILE-ARGENTINA ISSUE

SANTIAGO, Chile (Reuters) — Chile and Argentina have agreed to ask Queen Elizabeth to arbitrate in a frontier dispute, Foreign Ministry sources said Monday.

She will be asked to fix the boundary in the Andes in southern Chile. Her great-grandfather, King Edward VII, helped to settle a similar border dispute in 1902.

"Now let's not lose our heads," he said. "It's just that we've had a call from the United Press, and maybe the whole thing is a lie. So be calm. Did you ever pose for nude pictures? They got one on a calendar . . . and somebody says the girl is you. We'll have every religious group on our necks if it gets out. We tried to tell the story but we can't. Is it true?"

HE GIVES AWAY GRAND PRIZES

Is there something you want to know? Do you want to win a set of valuable books or other instructive prizes? Then ask Andy. Andy will answer questions submitted by child readers and those who submit the questions he selects to answer will receive worthwhile prizes. The youngster who asks the first question answered each day receives a 15-volume set of Compton's Pictured Encyclopedia—Canadian edition and of the second question a Hammond-Atlas or Globe. Address your questions to "Ask Andy," Victoria Daily Times.

Andy sends a complete, 15-volume set of Compton's Pictured Encyclopedia to Jep Pullin, age 9, of McDonough, Ga., for the question:

**Do whales lay eggs?**

The fishes and most other sea dwellers lay eggs—and the whale lives in the sea. But a whale is such a big fella—he may weigh 100 tons. This is enough to make anyone wonder, if whales lay eggs, like other sea dwellers, what whopping eggs they must be. The fact of the matter is that whales do not lay eggs. There are a great many different whales, but none of them lay eggs. They all give birth to live babies and the Mama Whale feeds her baby on mother's milk, just as a cat feeds her kittens.

The family tree of the whale, we are told, begins long, long ages ago. In those far off days, whales were land animals. They had four feet and most likely they had furry coats. The mothers had live babies and fed them just as cats and dogs feed their babies. These whale ancestors, we are told, hunted for their food by the sea shore. There they found plenty to eat in the water. As time went on they spent more and more time in the water. They became great swimmers and divers and learned to stay under water for long periods of time without coming up for air.

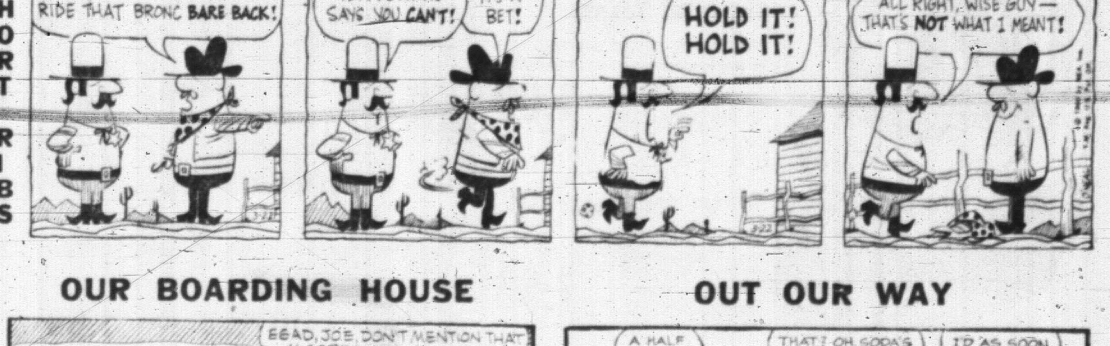

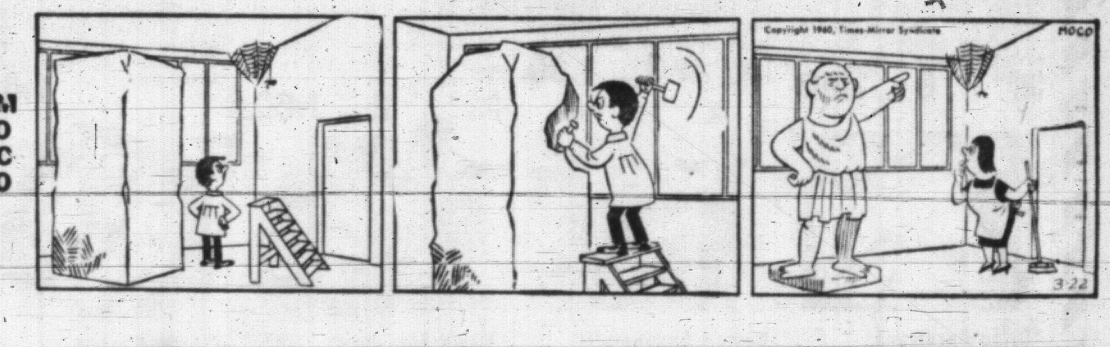

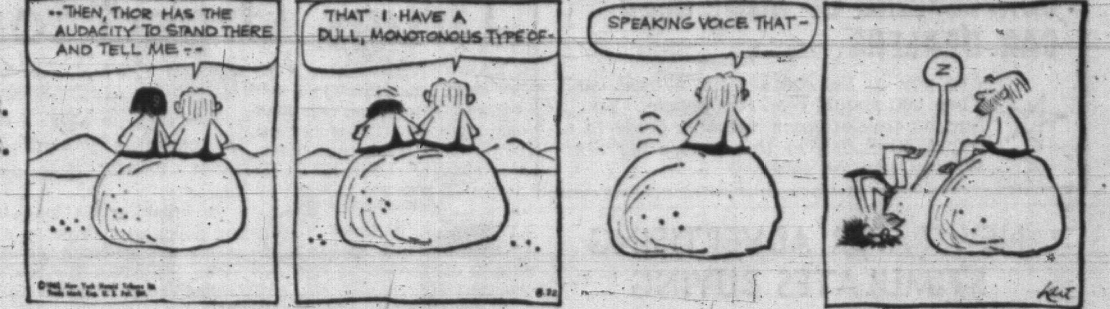

In time, the whales found that it was not necessary to come ashore for anything at all. They could stay under water searching for food and come up only when they needed a breath of air. There was only one problem. The baby whale, like any other air-breathing animal, needs a breath of air as soon as he is born. So the mother whale had to help her baby to be born at the surface of the sea.

Not many people get to see the birth of a baby whale. For the really big whales are creatures of the deep ocean. As a rule they travel with a group of friends and relatives called a school of whales. A mother whale has but one baby which is called a calf. Very rarely she may have twins. The baby may be 20 feet long and the smart little fellow is able to swim as soon as he is born. He has to, for he must keep up with his friends and relatives in the school of whales.

## Hunts on Own at Six Months

The mother nurses her baby for about six months. Then he is able to find his own food. Some whales feed on fish and squid. But the biggest whales are very dainty eaters. They feed on plankton, a sort of sea food salad. The surface of the sunny sea teems with all kinds of tiny plants and animals, many of them too small for our eyes to see. There are baby shrimps, clear as glass, countless fish-eggs and all sorts of water plants smaller than specks of dust.

## Drugs Urged for Addicts

VANCOUVER (CP)—A police chief broke through a self-imposed rule of silence Monday night to criticize citizens' newspapers, radio and television sharply and make an impassioned plea for narcotic addicts.

Vancouver's Chief George Argher said in a speech to the Board of Trade's ad and sale bureau:

"I sometimes wonder if communities aren't affected by a form of hypochondria which causes them to adopt a cowering, critical, crepe-hanging attitude toward their police force."

In breaking his long-standing policy of making no statements and granting no interviews, he called for the controlled use of narcotics for addicts.

The chief said it might not work but to try it anyway. "Let's do something. In the name of Christian decency, give them a chance. Do what you like with pushers but these poor afflicted people are the same as drunkards."

He said some of "so-called juvenile delinquents of 17 and 18" are not juveniles at all. Put them in jail. They are criminals.

SEBRING GAS RUHBARB  
KEEPS FERRARIS HOME

SEBRING, Fla. (AP) — A rhubarb over gasoline brands will rob Phil Hill of Santa Monica, Calif., of a chance to make it three straight victories in Sebring's 12-hour sport endurance race next Saturday.

On instructions from the Ferrari factory in Italy, Hill and the other Ferrari team drivers, Cliff Allison of England and Count Wolfgang von Tripps of Germany, will boycott this renewal of the world championship event.

Sebring has a contract with one oil company to put its gasoline in all the cars. Ferrari has a pact with another company. So manufacturer Enzo Ferrari told his drivers to stay home.

Ferrari raised the same objection before last year's Sebring race and smuggled a truckload of its own brand of gasoline to the course disguised in cans bearing the label of the other brand.

However, Sebring officials said the cans were seized and impounded and Ferrari cars ran on the race sponsor's product.

Engine Rule Jolts  
Car-Racing World

LONDON (AP) — The auto racing world faces its biggest crisis in years—one that could split the sport into two rival camps.

Cause of the trouble: the International Automobile Federation's decision to change engine limitations on next year's grand prix racing from 2,500 c.c. to 1,500 c.c.

Britain's powerful car builders want the 2,500-c.c. rule to stay for at least another three years. And they've threatened to boycott next year's world championship unless the rules are altered.

Some reports say there's even a chance the British may set up their own organization to govern auto racing unless the present 2,500 c.c. grand prix class stays. Italy and the United States are likely to back Britain.

The British car builders have asked the Royal Automobile Club, governing body of racing in Britain, to "put the matter in the strongest possible terms" to the federation.

The British firms regard auto racing as a way of developing new cars. They argue that the new regulations would reduce grand prix interest by lowering the speed of the cars and also restrict development because of a minimum weight rule (500 kilograms).

Turley, Ford, Art Ditmar (139) and Jim Coates (41) will be the Yankees' "big four."

Duke Maas and Bobby Shantz will be used for occasional starts and for relief along with Duren.

Howard in picture. Then there's Ralph Terry, 3-7 after the Yankees obtained him from the A's; Bill Short, a 17-game winner at Richmond; Eli Gerba, who only won two while losing five with the Yankees but whom Stengel says would have "won 'em all if we had just given him three runs a game."

Skowron at first and little Bobby Richardson at second are the only infielders sure of their jobs. Andy Carey may make a comeback at third base, which could leave McDougald fighting it out with Tony Kubek for the shortstop post. Also in the infield picture is Cletis Boyer.

Sure to be in the picture is Elston Howard, the No. 1 Yankee handyman, but just where he will play depends on whether Skowron holds up at first and if Maris and Lopez made good in the outfield. If that all comes about, Howard will divide the catching with Yogi Berra. You can forget about that Berra spring training third base experiment.

There are a lot of "ifs" on the club, but Stengel says, he "ain't frightened."

Team Spirit  
Still Favored

LONDON (AP) — Irish trained Team Spirit Monday night stayed 8-1 favorite for the Grand National Steeplechase.

Britain's leading bookies quoted unchanged odds for the most fancied horses in the big race, scheduled to be run at Aintree March 26.

But Mr. What, winner in 1958, moved up from 16-1 to 14-1.

Team Spirit jumped to the top of the betting after winning the four-mile Hurst Park national trial handicap steeplechase 10 days ago. The Grand National is over four miles, 856 yards.

Wyndburgh, which has twice finished second in the National, remained third favorite at 11-1. A few weeks ago Wyndburgh was favorite; but his odds lengthened after he finished fourth in a three-mile race at Ayr, Scotland.

Odds against Polished Steel lengthened from 33-1 to 40-1 after his owner, Arthur Dickinson, announced the horse was a doubtful starter.

SAN ANTONIO, Tex.—Ray Portillo, 140, Houston, stepped lightweight champion Joe Brown, 196, Houston, 8 (non-title).

HOUSTON—Sonny Liston, 225, Philadelphia, stepped Cleveland Williams, 216, Houston, 2.

Team Spirit 8-1, Dandy Scot 11-1, Mr. What 14-1, Kérstin 16-1, Badanloch 16-1, Clover Bud 20-1, Cannobie Lee 25-1, Clear Profit 25-1, Knoxville 28-1, Alliform, Arles, Green Drill and Tea Fiend 33-1, Polished Steel, Holly Bank, Jonjo and Uncle Whiskers 40-1.

What's best at the end of a busy day?

Casey 'Ain't Frightened'  
Despite Number of 'Ifs'

TIME OUT!

"Lefty's holdout with the club for more money was ended today.... They released him!"

ST. PETERSBURG, Fla. (UPI)—Casey Stengel has won nine pennants in his 11 years as manager of the Yankees and if he makes it 10 in 1960 he probably will retire from the game of which he has been a part for nearly 50 years.

Casey won't talk about quitting, but this is the last season on a two-year contract, he is 69 years old, his wife wanted him to quit for some time, and one of his coaches, Ralph Houk, turned down the managership of the Athletics this year, believing he would be at the Yankee helm in 1961.

But Casey may stick around if the Yankees lose, because he doesn't want to bow out as an also-ran. And he could be an also-ran this year like he was last when he finished third to the champion White Sox and the Indians.

Casey figures they are the two clubs to beat again. He concedes they probably were strengthened in off-season

camp to make up for a 1959 campaign in which, hammered out a homer and a bases-filled double as the Cardinals pounded out a 12-8 win over the Cincinnati Reds. Larry Jackson pitched no-hit ball for the Cardinals for five innings, but then Jerry Lynch connected for a grand slam homer in the sixth.

SHERRY SHELLED

Spahn, 21-15 last season, but fighting to prove to manager Charlie Dressen that he can work on a four-day rotation, held the world champion Los Angeles Dodgers to two unearned runs in six innings as the Braves scored a 6-4 victory.

The Braves scored the decisive runs off world series hero Larry Sherry in the seventh on a walk, Joe Adcock's triple and Lee Maye's single.

Bauer, starting a new career in Kansas City after being with the Yankees since 1947, blasted out five hits, including two doubles, against his ex-teammates to lead the Athletics to a 10-1 triumph. Norm Siebern, hitting .440 for the spring, contributed a double to the Kansas City offense.

The Pittsburgh Pirates scored an 8-5 win over the American League champion White Sox, the Red Sox team edged out the Philadelphia Phillies, 4-3, and the Phillies' team downed the Cardinals, 3-1, in yesterday's only other games. Most teams took the day off.

Skowron at first and little Bobby Richardson at second are the only infielders sure of their jobs. Andy Carey may make a comeback at third base, which could leave McDougald fighting it out with Tony Kubek for the shortstop post. Also in the infield picture is Cletis Boyer.

Sure to be in the picture is Elston Howard, the No. 1 Yankee handyman, but just where he will play depends on whether Skowron holds up at first and if Maris and Lopez made good in the outfield. If that all comes about, Howard will divide the catching with Yogi Berra. You can forget about that Berra spring training third base experiment.

There are a lot of "ifs" on the club, but Stengel says, he "ain't frightened."

Maggy Rouff designs for spring, a coat at left with the new, high-filled look, made in a soft tweed of Orlon acrylic fiber and wool in a dynamic jade green. Two patched pockets placed well up on the bodice, give an indication of a waistline, in contrast to the loose silhouette of the coat

in back. In the youthful collarless suit, right, Cardin combines a long line with a rounded effect, achieving it by means of a curved peplum, dropped shoulders and loose sleeves. Using bright red tweed of Orlon acrylic fiber and wool, he expresses his special affinity for color. (NEA)

## 'Slow Curve' Spring Silhouette

This spring is not a drastic one for fashions from Paris. A summing up of the Paris collections, shows that what the gals will get this year is the slow curve.

This includes the princess line, plenty of pleats, the long torso and the flatter bustline, sponsored by the House of Dior.

Color is both vibrant and impressive. Bearing out a trend which started in the earlier American collections, Parisian designers have emphasized

## Toastmistresses Speak On Irish

Taking background of their talks from the Irish, four members of Arbutus Toastmistress Club spoke at recent meeting. Mrs. S. McCulloch's topic was "The Unknown Englishman: A History of Life of St. Patrick," Miss Molly Renny: "The Irish Potato," Mrs. C. Fensham: "The Emerald," and Miss Winifred Reay, toastmistress, "St. Patrick's Day."

Mrs. H. Ker presided and Mrs. W. Young, timer, gave inspiration. Table topic mistress, Mrs. G. Donaldson, led topic on bonus stamps. A lesson on the importance of evaluation and criticism was given by Mrs. J. Gillis.

Introductory speech was given by Mrs. R. H. Holly.

Speech evaluators were Mrs. G. Benbow, Mrs. M. J. Chaplin and Mrs. A. E. Mourant. Lexicologist was Mrs. Ker and Mrs. R. M. Williams thanked speakers. General evaluator Mrs. F. Dearman awarded oscar to Miss Reay and spur to Mrs. Fensham. Closing thought was given by Mrs. Ker.

## Diamond-Studded Cross Gift to Recent Bride

A white gold cross, studded with diamonds, gift of groom, was only jewelry worn by Miss Barbara Ann Tindell for recent marriage to Anton Johan Ratzka in St. Luke's Anglican Church. Bride is daughter of Mr. and Mrs. John A. Tindell of Victoria. Groom's parents are Mr. and Mrs. A. Ratzka of Germany.

Pink and white carnations were on altar and baskets of jonquills, daffodils, iris and greenery decorated church for double ring ceremony at which

Mrs. and Mrs. S. K. Crawford of Victoria, wish to announce the engagement of their youngest daughter, Patricia Marie, to Clifford John Coulter, son of Mr. and Mrs. J. Coulter, of Kenora, Ont. Wedding will take place Friday, April 8 in Oak Bay United Church. Rev. A. Calder will officiate. Miss Crawford has chosen for her attendants, Mrs. Arthur Carey, Saskatoon as matron of honor; Miss Maureen Crawford, sister of bride-elect, and Miss Helen Netterfield, bridesmaids. Cathy Carey will be flower girl. Best man is Orr Coulter, and ushers, Robert Coulter and Norman Murphy. (Souvenir Photo.)

## White Lace Gown Worn by Bride

White lace over-taffeta formed afternoon-length gown of Miss Suzanne Carol Walton for her marriage to Richard Valentine (David) Snape in the Church of Our Lord, Saturday.

Chapel-length veil was held in place by a tiara of sequins and pearls. Bouquet was of white roses and freesia.

The bride is daughter of Mrs. Bertram Walton, 411 Vancouver Street, and the late B. Walton. Groom's parents are Mr. and Mrs. Richard H. Snape of 1120 Tattersall Drive.

Bishop D. A. G. Rankin officiated at afternoon ceremony. Bride was given in marriage by her uncle, Roland Perrin.

Miss Barbara Walton, sister of the bride, was only attendant. Gowned in blue lace over taffeta, she wore a hat of matching net, encircled with blue and yellow flowers. Colonial bouquet was of white and yellow carnations.

Mother of the bride, Mrs. Walton, wore a flowered beige

## National Officer Stresses Need For Better Church Work Program

Lack of good program was the reason given by Miss Beatrice Wilson, executive secretary of the Dominion Council of Women's Association for lack of members in women's organizations within United Church of Canada. Addressing annual meeting of Victoria Presbyterian Woman's Association in Metropolitan United Church, Monday afternoon, she said, "Let's face it, more than half the women of the church don't like us!"

Outlining proposed organization which is slated to come into effect on January 1, 1962, and which will be a combination of the Women's Association and Women's Missionary Societies, she stressed one of requirements would be that of providing programs to attract new members.

"After all," she continued, "women's work in the church is of prime importance. We're not small peanuts. Last year women of the United Church of Canada raised over \$7,000,000. Nobody's going to kill the goose that lays the golden egg!"

Mrs. J. G. Howes, president of Women's Association of Metropolitan Church, welcomed delegates to the day's session. Mrs. A. H. Sheard, of the First United Church's Women's Association, gave devotional.

Rev. Laura Butler installed new presbyterial officers. They are: Mrs. C. W. Davies, president; Mrs. W. H. Yardley and Mrs. F. G. Matkin, vice-presidents; Mrs. A. E. Burkholder, recording secretary; Mrs. R. E.

Hindley, corresponding secretary; Mrs. E. L. Fuller, treasurer; Mrs. E. M. Leham, life memberships; Mrs. W. Pattie, literature; Mrs. Yardley, press; Mrs. V. A. Beaumont, devotions; Mrs. W. W. Flett, manse; Mrs. K. P. Bratvold, visiting and Christian fellowship; Mrs. C. F. Moseley, Christian citizenship; Mrs. R.

J. Osland, co-operation with Christian education; Mrs. R. Baird, leadership education; Mrs. Matkin, organization; Mrs. O. Vogel, Christian stewardship, and Mrs. F. Potts, historian.

## Is Your English Holding You Back?

"Many intelligent men and women are held back in their jobs and social lives because they use poor English or can't speak and write effectively," says Don Bolander, director of English at Caffer Institute, Chicago.

"Adults who realize that their English is holding them back use our new home method to stop making embarrassing mistakes in English, to improve their writing, to increase their vocabularies, to speed up their reading, to acquire the techniques of fluent conversation. But the use of effective English pays off in unexpected ways," says Bolander, "because language is a tool of thought as well as a tool of expression."

"You use words with which to think. The more you learn about words and how to arrange them to express your ideas, the better your thinking becomes. The improvement of your English—including your thinking—can lead to amazing personal achievements."

For those interested, Bolander has made available a free 32-page booklet that tells how you can gain the ability to speak and write like a college graduate, in your own home. Just put your name and address on a card or letter and send to Don Bolander, Dept. VC1, 30 East Adams, Chicago 3, Illinois. The booklet will be mailed promptly with no obligation, of course.

## Push-Button Mating Works

NEW YORK (UPI)—Twentieth-century electronics have come to the aid of a ritual old as mankind—the mating game.

The mechanical brain to some degree even measures sex appeal, that quality which makes a Marilyn Monroe into a global institution, says Lee Morgan, a graduate sociologist.

Miss Morgan, a brown-eyed brunette in her early 30s, and happily wed, is founder and director of the Scientific Information Service, Inc., an organization which uses the push-button as well as personal approach to help those searching for a mate.

Miss Morgan, a graduate of New York University, said that in four years she has directed the service, she has introduced between 5,000 and 6,000 persons—most of them in their 20s and 30s. The marriage rate runs "between 10 and 15 per cent."

## FINAL BULLETINS

### Deadly Pellet Recovered

PEACE RIVER, Alta. (CP) — A missing \$17,000 radioactive pellet used in oil well servicing was located today 320 miles north of here.

The pellet, belonging to the Schlumberger Oil Well Service Company, and made of radium and beryllium, was located on a farm.

### Canucks Raise Price for Playoffs

VANCOUVER (CP) — The Pacific National Exhibition, operators of Vancouver Canucks home games in the Western Hockey League, has raised the price of hockey tickets by 25 cents apiece for the playoff series.

It is the first time since Canucks joined the WHL that prices have been increased for playoff games. The other playoff clubs will not increase prices.

### Crazylegs Named Rams Manager

LOS ANGELES (AP) — Elroy Crazylegs Hirsch, retired star pass-catching end of the Los Angeles Rams professional football club, today was named its general manager.

### Marconi Gets Montreal TV Outlet

OTTAWA (UPI) — Canadian Marconi Company and Paul L'Anglais and Associates have been recommended for the English and French-language second television licences in Montreal, the Board of Broadcast Governors announced today.

### 7-Year-Old Girl New Polio Victim

BURNS LAKE (CP) — A seven-year-old girl flown to hospital here from her home at Lowback Bay, 35 miles south of here on Ootsa Lake, today became the 16th victim of this area's outbreak of polio.

Julie Charlie, daughter of Mr. and Mrs. Michell Charlie, was reported to be suffering only slight paralysis.

### VIOLENCE RESUMES

## More Negroes Killed in S.A.

(See Page 5)

JOHANNESBURG (CP) — Police opened fire on Negro crowds today as bitter racial tension again erupted into violence in a Negro township near Cape town.

The new outbreak came as the official death toll in bloody clashes Monday rose to 66 Negroes dead and 186 wounded.

Reuters news agency said one Negro was reported wounded in today's shooting in nearby Langa Township, where two persons were killed and more than 30 injured Monday night. Police opened fire to disperse crowds, which assembled in the streets of the township again today.

Trouble also was reported from Nyanga West Township, where Negroes were said to have tried to set fire to an electricity department building. Meanwhile, tension remained high in Negro townships near Johannesburg, 900 miles to the northeast, where the worst of Monday's violence occurred.

### Surgeons Busy in Jammed Hospitals

Hospitals in Johannesburg were jammed with the injured from fighting Monday in Sharpeville, where the worst violence occurred.

Beds were full and patients were crammed together on the floor of the Baragwanath non-white hospital. A nurse said doctors performed 66 operations on the wounded during the night.

Reports published today in London newspapers put the toll as high as 170 killed and 400 wounded.

### Vancouver Stocks Closing Sales

VANCOUVER — Closing sales: Pacific Petroleum 100 at \$11.15, Silbak 500 at 28, Neon Products 200 at \$15, Canadian Breweries 50 at \$31.25, Mid West Copper 500 at 10, Fort St. John 100 at \$1.05.

## Six Prizes In Irish To Island

Six Vancouver Island residents hold Irish sweepstake tickets on horses in the Grand National Steeplechase to be run at Aintree, Saturday, but three of them are non-runners.

Lady Nenagh, a 100 to 1 chance, was drawn by a Victorian under the nom-de-plume "Kim," and a Youbou resident under the name of "Bingo."

The horse Polished Steel was drawn by "Lucky Windy," also of Victoria. It is quoted as a 25 to 1 shot.

Other Victorians, "Clarswin," and "Cashier," drew non-runners and "Fleetwood" of Campbell did the same. They have no chance at the top prizes but are assured of a consolation award of about \$1,200.

The two who hold tickets on starters in the race stand a chance at the top prize of approximately \$140,000.

Further drawings will take place and will include winners of residual prizes, not involving horses but worth approximately \$400 each. These are usually drawn up to a day before the race is run.

### Victim May Have Snapped Slayer

STARVED ROCK STATE PARK, Ill. (UPI) — One of the three women murdered in Starved Rock Park took a picture of a man who may have been the killer, Sheriff Ray Eutsey said today.

Eutsey showed reporters a blow-up of a triple exposure and said the picture contained the figure of a man. Reporters tended to agree with him.

The shadowy figure, Eutsey said, was a news conference, an

appears to be of a man about 5 feet 9-inches tall, weighing about 160 pounds. The man has a high forehead and is between 25 and 30 years old.

Eutsey said, and is wearing boots and a parka jacket and appears to be carrying something in his left hand that may be the murder weapon.

An alert has been issued for a man of that description, Eutsey said.

Eutsey said the picture was snapped by one of the victims.

"I believe she saw a man appear in the background and snapped his picture and became nervous at the same time."

In attempting to roll the film, something happened and she got a triple exposure.

The pictures were developed from a blood-crusted camera found in a cave near the bodies of the three vacationing Chicago suburban daughters.

Two of them, Mrs. Mabel Lindquist, 50, and Mrs. Frances Murphy, 47, were in the pictures, indicating the shutter was snapped by Mrs. Lillian Oetting, 50.

Eutsey said the description of the man in the triple exposure matched that of one of two men an automobile salesman said were near the area a week ago Monday.

## QUEEN NAMES HER NEW SON

LONDON (Reuters) — Queen Elizabeth today named her second son Prince Andrew after her husband's late father, Prince Andrew of Greece.

The full names of the 32-day-old baby were Andrew Albert Christian Edward.

The second name is after his other grandfather—King George VI of Britain, who was known as Albert in his youth.

## FIREBUG TERRORIZES DESERT CITY

INDIO, Calif. (AP) — Special patrols moved through this fire-frightened desert city today as edgy citizens wondered where an elusive arsonist would throw his torch next.

There have been three major fires in six days, and one estimate places damage at more than \$1,000,000. One of the fires broke out in a movie theatre, sending 50 patrons dashing into the street. The theatre roof later caved in.

The city council Monday declared a state of emergency, placing the fire and police departments on stand-by status.

United States Marines based nearby are patrolling the streets, and businessmen have been asked to augment this force with patrols of their own.

Firemen said the blazes definitely were the work of an arsonist.

## James Bay Site Under Survey

The world's first helicopter flying boat will be seen by Victorians next month during flight tests for a proposed Victoria-Vancouver service.

Okanagan Helicopters Ltd. today announced in Vancouver it has filed an application to operate the downtown-to-downtown service with the Air Transport Board.

Company officials were in Victoria over the weekend to look over some possible helicopter sites in James Bay.

The company's annual report said the turbine-powered Sikorsky S-62 amphibious helicopter is scheduled to arrive in Vancouver April 2 for testing over the route of the proposed passenger service.

The S-62 carries 12 to 14 passengers. It is a smaller version of the twin-turbine S-61, which seats 25 to 30 persons and is considered the most likely aircraft for the proposed service.

Cost of the bigger machine is \$1,000,000. Both machines have amphibious hulls and retractable wheels for landing on either water or land.

"This application will be proceeded with if the route studies now being made and the economics of the helicopter now under consideration satisfy directors that the operation can be conducted without direct subsidy," the annual report said.

The new aircraft apparently is expected to fill the gap caused by delay of a Fairley Rotodyne to 1964 delivery date.

The Rotodyne, also an unusual aircraft, is under development by Fairley Aviation Company in England. It combines features of helicopter and conventional aircraft. Okanagan Helicopters had planned to try for a franchise between the two cities by 1962.

The company said it would not release further details about the helicopter flying boat until Sikorsky officials

## Surprise Deal On Columbia Offered by U.S.

By TOM GOULD, Times Ottawa Bureau

OTTAWA—The United States is ready to make a deal on the Columbia River.

U.S. negotiators slipped secretly into Ottawa Monday for surprise talks aimed at bringing about a rapid settlement on Columbia power development.

B.C. representative Ed Bassett was called to attend and flew to the capital in time for the talks.

Next official meeting of the two negotiating teams was not scheduled to be held until the end of the month in Washington.

One source said the U.S. officials sent word to Ottawa they were ready to make a deal, and wanted "informal" talks to lay the groundwork.

It is believed the U.S. notified Justice Minister Davie Fulton and the remainder of the Canadian team that it is willing to give up its plan to construct the Libby Dam in Montana.

The Americans asked what concessions Canada could make in return to make the decision to drop Libby palatable to the U.S.

Federal officials were astounded at the sudden change of heart by the Americans. When the last Columbia meetings were held at the beginning of this month in Washington, the word was the U.S. was being "very tough."

Reports from the U.S. capital said snags had developed in the talks, and warned of months of delay. Ottawa officials conceded that an agreement could be months away, too late for ratification by the U.S. Congress.

Monday's talks have changed the entire picture.

## U.S. Bases To Stay Reds Told

(See Page 3)

GENEVA (UPI) — The United States today summarily rejected Soviet demands for the liquidation of overseas bases as the first step toward disarmament.

It said American troops would remain as long as they are needed "to defend the free world's security."

U.S. delegate Frederick M. Eaton told the 14-nation disarmament conference that it would be "neither profitable nor fruitful" to discuss overseas bases here.

He was replying to repeated Soviet demands for the "liquidation of foreign bases." Eaton said American troops are stationed abroad by invitation of the host countries.

REDS NOT INVITED

He sharply reminded Russia's Valerian Zorin that the Soviets also have troops stationed outside their borders, but with this difference—they were not always invited. They have gone there sometimes as the result of direct attack or political action and have been used on occasions against hostile populations Eaton said.
